Woodland Mutual Water Company
Land Use Agreement for the Utah Department of Drinking Water

The Woodland Mutual Water Company (WMWC) owns the land surrounding the well serving its users on the north side of the community in Summit County. This land involves a 100-foot radius completely surrounding the well head and is the land that is addressed in this document.

As the owner of this land, WMWC declares and agrees not to locate or allow the location of uncontrolled potential contamination sources or pollution sources within zone one of the well-head to protect the integrity of the aquifer. WMWC also agrees not to locate or allow the location of pollution sources within zone two of the above-named well head unless the pollution source agrees to install design standards which prevent contaminated discharges to ground water. This restriction is considered binding on all successors and assigns of WMWC.

This agreement is declared and witnessed this date May, 21 2002.
