twenty (20) chains; thence East twenty (20) chains to the place of beginning.

The grantee herein to maintain the said lines where the same are now constructed over, through, and across, the above described tract of land. If in the future the grantors shall determine to build their dam, now located on said tract, larger and make other improvements in the reservoir site of said Company, and it shall become necessary to move any of the poles on said dam in order to properly build said dam or make said improvements, then and in that event the grantee shall move or cause to be moved, within a reasonable time, any poles necessary to any point along and in the direction of the lines for a distance not to exceed fifteen feet, that may be designated by the grantor, or the grantee may place said poles upon the top of said dam in such manner as shall not interfere with the ordinary operation and maintenance of said reservoir site.

In witness whereof the corporate name of the grantor is hereunto subscribed and its Seal affixed by its officers thereunto duly authorized, on the 24th day of June, A. D., 1902.
