THIS AGREEMENT is made and entered as of the 15th day of November, 2018 and between **JFRG BLUFFDALE, LLC**, whose address is 3165 East Millrock Drive Suite 500, Salt Lake City, Utah 84121, hereinafter referred to as the "Owner," and the **SOUTH VALLEY SEWER DISTRICT**, a political subdivision of the State of Utah, whose address is 1253 W Jordan Basin Ln, Bluffdale, Utah 84065, hereinafter referred to as the "District."

WITNESSETH:

WHEREAS, the Owner proposes to install a sewer line or sewer lines, laterals, manholes and related structures and facilities (hereinafter, "Sewer Improvements"), as a part of the Saddleback Pointe development, which Sewer Improvements will be connected to the District's sewer system in order to provide for collection, transmission, treatment, and disposal of sewage from Owner's land; and

WHEREAS, the proposed Sewer Improvements are to be located on Owner's land at approximately 13854 South 2700 West, in Bluffdale City, Utah; and

WHEREAS, the District, in accordance with its rules and regulations, will not allow connection of the Sewer Improvements to the District's sewer system or otherwise approve or accept any work by the Owner unless an agreement is made to assure completion of the Sewer Improvements according to the District's Design Standards and Construction Specifications and the plans and profile drawings approved by the District; and

WHEREAS, Owner desires to connect all units in single building to the sewer main owned by the District with a common sewer lateral; and

WHEREAS, the parties desire to reduce their respective understandings and agreement to writing.

NOW, THEREFORE, in consideration of the mutual covenants contained herein, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereby agree as follows:

1. **Installation of Improvements.**

a. **Plans and Specifications.** The Owner shall provide a set of plans and profile drawings of the Sewer Improvements and sewer system design for review and acceptance by the District. This design shall also provide for additional capacity for tributary areas if the District so directs. The District engineer will thereafter approve or reject the Owner's plans and drawings.

b. **Installation.** After compliance with all District requirements, including payment of all applicable fees and costs, a preconstruction conference may be held with the Owner and the District's engineer and/or inspectors. Upon satisfactory compliance with all of the foregoing requirements, the Owner shall proceed to install in a workman-like manner at Owner's sole cost and expense, the Sewer Improvements as shown on the plans and profile drawings approved by the District and in accordance with the District's Design Standards and Construction Specifications. If the Sewer Improvements are not commenced within one (1) year from date of this Agreement, Owner shall resubmit plans for review and approval by the District engineer. All work shall be subject to District testing, inspection and approval before the same is covered or interconnected with the main outfall lines constructed by the District. If the work is covered before such testing, inspection and acceptance, the District may require the line to be uncovered for testing and inspection and may disconnect the Owner's system from the District's sewer system. The actual interconnection of Owner's sewer system with the District's main outfall line or lines shall be done at a time and in a manner approved by the District at the Owner's expense.

c. **Connection to District Lines.** Owner's Sewer Improvements shall not be connected to the District lines until Owner has fully performed Owner's obligations set forth in this Agreement.

2. **Rules and Regulations.** The Owner hereby agrees at all times to abide by the established rules and regulations of the District, including but not limited to, the payment of fees and charges as the same shall become due, construction of the Sewer Improvements in accordance with the District's Design Standards and Construction Specifications and complying with all pretreatment requirements of the District.

3. **Owner's Representations and Agreement.** Owner hereby represents and agrees that:

a. Owner is the owner of the real property for which this Agreement is made;

b. Owner hereby grants the District and its designees the full right to enter upon all property within Owner's development to inspect the Sewer Improvements at any time.

c. 1. **Lateral Ownership and Responsibility.** Laterals are not owned or maintained by the District. Laterals are the property of Owner, who shall be solely responsible for operating and maintaining the sewer laterals which serves Owner's Property.

Where pretreatment facilities are required, Owner shall design and install a separate interceptor pipe, interceptor, sampling manhole, or amalgam separator hereinafter collectively referred to as the "Pretreatment Facilities." The Pretreatment Facilities shall be sized and designed to meet the pretreatment requirements of the District and shall comply with any required Discharge Permit(s). Owner shall maintain and repair such Pretreatment Facilities at owner's sole expense. Owner shall indemnify and hold harmless the District, its officers, employees, engineers, agents and representatives from any liability, expense, claims or damages of any nature which may arise from the operation and maintenance of the Interceptor herein.
