Section 3 of the Protective Covenants is hereby amended to read as follows:

3. CREATION OF SPECIAL APPROVAL COMMITTEE

In order to administer and supervise the restrictions, conditions, covenants and agreements herein, and to give the approvals required, there is hereby created a Review Board consisting of not less than five and not more than nine members. The initial Review Board shall consist of five members, two members appointed by the Mayor of Springville, with the advice and consent of the Springville City Council, who shall

serve at the pleasure of the Mayor; two members appointed by the Owner of the initial industrial site transferred and conveyed by the City, who shall serve at the pleasure of said Owner; and one member elected by the majority vote of the four members so appointed, who shall serve for the term of one year and until such elected member's successor has been elected. It is recommended that said elected member be a person with planning, architectural or engineering experience. The four appointed members aforesaid may from time to time increase the number of members on said Review Board within the limits above stated by electing additional members who shall be representatives of industries sited in the park and who shall serve for a term of one year and until such elected member's successor has been elected.

The Review Board shall elect one of its members as chairman, to serve at the pleasure of the board, and shall adopt such development guidelines as it deems necessary to inform Owners of the standards which will be applied in approving or disapproving proposed uses and construction. Such guidelines shall be binding on all Owners and may amplify but shall not be less restrictive than the restrictions stated herein; and they may be modified in the same manner as above provided for the modification of these protective covenants. Such guidelines shall state the rules and regulations of the board with respect to the submission of plans and specifications for approval and the time within which they must be submitted; but the Review Board shall approve or disapprove in writing any plans or specifications submitted within sixty days after submission or it shall be deemed to have approved the material submitted except as to variances or waivers of the restrictions herein stated, which variances or waivers shall be deemed to have been refused. Review and approval by the board must be based upon the standards set forth in these protective covenants and the guidelines aforesaid; but the board shall consider not only the quality of the specific proposal, but also its effect and impact on neighboring sites and on the entire park.

The Review Board shall require that all uses, structures and improvements in the park harmonize with the existing surroundings and structures and meet the requirements set forth in these protective covenants and any development guidelines established by the board. In order for the board to perform its function under the protective covenants, the following restrictions shall apply to use, construction on, and occupancy of land in the park:

(a) Each proposed use of any parcel of land shall be approved by the Review Board. The board shall also review and approve architectural drawings of the buildings, site, and landscaping. Uses and plans not approved by the board will not be permitted.

(b) The use of any parcel of land shall not be changed without the board's approval nor shall any alteration or improvement of any site be made (including repainting or refurbishing the exterior of any structure) without the board's approval.

(c) No parcel shall be subdivided nor shall less than the whole of any parcel be leased or subleased except on specific approval by the board of each such instance.

The Review Board shall have all powers necessary to approve land use and plans and to enforce its decisions in accordance with the covenants and agreements herein or in any manner provided by law. In exercising its powers hereunder, the board shall bear in mind the general purposes of the park.

The Review Board shall not be liable for damages by reason of any action, inactions, approval or disapproval by it with respect to any request made pursuant to these protective covenants.
