RECITALS

WHEREAS, in furtherance of the objectives of the Layton City General Plan, on the 7th day of August, 1997, the City approved an application for a zone change from the present zoning of A (Agriculture) and PB (Professional Office) to CP-1 (Planned Neighborhood Commercial) and B-RP (Business and Research Park), of certain property located at approximately 700 West through 800 West on the north side of Antelope Drive in Layton City (hereinafter the "Subject Area"); and

WHEREAS, the overall Subject Area consists of approximately 22.53 acres belonging to Layton Pointe LC, and is depicted on Exhibit "A" attached hereto; and

WHEREAS, the City has considered an application for a zone change affecting approximately 3.897 acres of the Subject Area (hereinafter "Residential Area") located at approximately 700 West Antelope Drive/2098 North Harris Boulevard from the present zoning of B-RP (Business and Research Park) and CP-1 (Planned Neighborhood Commercial) to C-TH (Condominium/Townhouse) as depicted in Exhibit "A" and Exhibit "D"; and

WHEREAS, the City has reviewed the recommendation of the Planning Commission regarding this Agreement, together with a traffic and market analysis provided by the developer and depicted in Exhibit "B"; and

undertakings described herein, which Agreement will provide protection to surrounding property values and will enable the City Council to consider the approval of such development at this time; and

WHEREAS, City believes that entering into the Agreement with Owners is in the vital and best interest of the City and the health, safety, and welfare of its residents.

A ten foot (10') landscape buffer shall be installed along the existing decorative masonry wall, as well as the north and east property lines, and shall include trees spaced every twenty five feet (25'), with shrubs that provide coverage of at least sixty percent (60%) of the landscape surface area at mature growth.
 - ii. Buildings shall be set back a minimum of forty feet (40') from the northern and eastern property line.

- i. Thirty foot (30') landscape buffer shall be installed and said buffer shall include trees, shrubs, turf, and a decorative masonry wall that is the same material and architectural design as that used on the buildings throughout the project area. The wall shall be six foot (6') to eight foot (8') in height depending on topography and the height shall be measured from the residential side of the existing property line. The buffer and wall may be modified adjacent to the North Layton Junior High School property and the Castlebrook Commercial Subdivision property to include a minimum ten foot (10') landscape buffer and a fencing alternative to ensure compatibility with input from these property owners.
 - ii. All buildings shall be set back a minimum of sixty feet (60') from the existing property line (as depicted on Exhibit "B"; Site Plan for Buildings 3, 4, 5, 6, and 7). The height of the commercial buildings, any portion of which is within this area, shall be limited to one (1) story, but not to exceed thirty-five feet (35') in height, including all mechanical facilities. Office buildings within this area shall be limited to two (2) stories, but not to exceed thirty-five feet (35') in height to allow a balanced architectural office design (as depicted on Exhibit "B"; Site Plan for Buildings 3, 4, 5, 6, and 7).

- e. Access to this site from Antelope Drive shall align with 700 West (Harris Boulevard) and continue through the site so as to align with 800 West on the North side of the Subject Area. Owners are solely responsible for the construction of this roadway, its intersection with the north curb line of Antelope Drive, and all costs associated therewith, including traffic semaphores and the removal of any existing structures. Construction and installation of the traffic semaphores shall include all items necessary for a fully functional traffic light including traffic coordination equipment with adjacent traffic signals. Further, if the development of this property is to be done in phasing, access and roadways shall be constructed so as to facilitate traffic onto Antelope Drive. No development shall occur that has its sole access northerly onto 800 West. Owner(s) may complete the construction and dedication of the access described in this paragraph. In the case where one Owner completes and dedicates the access, all Owners agree that the Owner dedicating property and completing the work, at their option, may seek contribution from the other Owner(s) in an amount equal to the noncontributing Owner's proportional share of impact on the road. Said impact will be based on Owner's respective acreage, excluding that property occupied by the public right-of-way. Further, the roadway and development shall be constructed so as to ensure access to Owners respective properties.
- f. These enumerations are not to be construed as approvals thereof, as any required approval process must be pursued independent hereof.
- g. Owners agree to limit development to the above uses upon all properties within their ownership or control, within the Subject Area, and if other uses are desired, they agree to seek amendment of this Agreement before pursuing the development of those uses.

- h. Owners of the area within the CP-1 (Planned Neighborhood Commercial) and B-RP (Business and Research Park) zones, (specifically excluding the Residential Area) agree to develop their respective properties within the subject area, such that:
- i. All lighting in both the B-RP zone and CP-1 zone, is directed away from the residential uses surrounding the subject area, and shall comply with all requirements of the Layton Municipal Code restrictions regarding lighting.
 - ii. No outside speaker systems shall be permitted in the Subject Area.
 - iii. All dumpsters and garbage receptacles shall be located away from the surrounding residential properties and shall be properly screened as depicted on Exhibit "B"; Site Plan – between Buildings 3 and 5. The location shall be such that the smell and sight do not directly impact the residential neighborhoods. Delivery times for retail uses adjacent to residential zones shall be limited to the business hours for the various tenants. Delivery access to the rear of the buildings/uses located at the northwest corner of the Subject Area shall be provided at the south side of Building 3 on the Site Plan as depicted in Exhibit "B".
 - iv. Landscaping shall be placed between the residences and the B-RP and CP-1 uses, to serve as an adequate buffer between the uses. The landscape plan approved by the Planning Commission, in compliance with the terms of this Agreement, shall become a part and condition of this agreement and shall constitute an adequate buffer for the purposes of this paragraph.
 - v. The perimeter of the Subject Area abutting existing residential uses, except for the school property, shall be fenced with a six foot (6') to eight foot (8') masonry wall as depicted in Exhibit "B". The school property may be fenced, in accordance with the requirements of Chapter 19.16 of Layton Municipal Code, provided the applicant installs a minimum ten foot (10') landscape strip with additional screening to buffer the commercial uses from the school property. The buffer adjacent to the school property shall be coordinated with input from the school district.
 - vi. As of the date of this amended agreement, Owners have accomplished the following options with the installation of the masonry wall and landscape requirement:
 1. Owners shall have the following options regarding the installation of the wall and landscaping adjacent to residential lots along the periphery of the Subject Area:
 2. Deed adjacent residential property owners twenty feet (20') of land to increase depth of the rear yard areas and place masonry wall along newly established property line. Owner shall be responsible for the construction of the masonry wall together with landscaping improvements on both sides equivalent to the thirty foot (30') minimum landscape buffer required by this agreement. Owners shall also be responsible for the installation and extension of irrigation systems, turf grass, and at least one medium/large deciduous tree every twenty five feet (25') per residential parcel. The twenty foot (20') shift of property lines and the masonry wall shall occur for a minimum lineal distance along the periphery of the Subject Area equal to the three (3) contiguous lots along the west boundary; and/or equal to the eight (8) contiguous lots along the north boundary from the northwest corner of the Subject Area to 800 West; and/or equal to the eight (8) contiguous lots along the north boundary from 800 West to the northeast corner of the Subject Area; and/or equal to the twelve (12) contiguous lots along the east boundary

from the northwest corner to the southwest corner of the Subject Area; or

3. If the contiguous lineal sections described above in subsection 4.1.1.h.vi of this agreement are not unanimously agreed to by the residential property owners, Owners shall make a cash payment to said adjacent residential property owners of a sum of not less than \$1,000.00 to be used by said residential property owners for the installation of additional landscaping, trees, and buffers on the residential side of the masonry wall constructed along the existing property line.

4.2. Owners shall see that the Subject Property within their ownership and control, within the B-RP (Business and Research Park) zoning district, shall have an aggregate landscaping of twenty-five percent (25%), with each parcel or lot having a minimum of twenty percent (20%) landscaping. The twenty percent (20%) landscaping requirement within the B-RP (Business and Research Park) zone may be modified by the Planning Commission, providing the applicant submits an integrated plan for the development, or a portion thereof, which provides for a balancing of the landscaping requirement and to ensure that the objectives of the landscaping requirement are satisfied. Each parcel or lot within the CP-1 (Planned Neighborhood Commercial) zoning district shall, independently satisfy the landscaping requirement of ten percent (10%) landscaping. In addition, Owners shall not place any use upon the property, which requires any outdoor storage. Outdoor storage shall be defined as the storage of any item or material outside of the four (4) walls of a covered building, including but not limited to gravel, wood chips, automobiles (other than daily parking), machinery, appliances, and other similar items.

4.3 The buildings constructed on the Subject Area within the B-RP (Business and Research Park) and CP-1 (Planned Neighborhood Commercial) areas shall be substantially consistent with the architectural renderings as shown on Exhibit "B". The building materials shall be masonry (stucco, brick, rock) of earth tone color. The architecture and landscaping shall be substantially consistent with the site plan submitted by the developer as shown in Exhibit "B". Development of the Subject Area shall produce an architecturally integrated project that provides a consistent architectural feel. City Staff shall provide recommendations consistent with the overall project as depicted in Exhibit "B". Significant or material changes to the architecture and materials of the proposed buildings shall be submitted to the Planning Commission for review and approval.

4.4. Additional utilities required for the development of the Subject Area shall be provided and installed by the developer, including all utilities in 700 West (Harris Boulevard).

4.5. Except as provided in paragraph 4.2 above, any conflict between the provisions of this Agreement and the City's codified requirements shall be resolved in favor of the more restrictive requirement.

ARTICLE V GENERAL REQUIREMENTS AND RIGHTS OF CITY

5.1 Issuance of Permits - Owners. Owners, or their assignee, shall have the sole responsibility for obtaining all necessary building permits in connection with Owners Undertakings and shall make application for such permits directly to the Layton City Community and Economic Development Department and other appropriate departments and agencies having authority to issue such permits in connection with the performance of Owners Undertakings. City shall not unreasonably withhold or delay the issuance of its permits.

5.2 Completion Date. The Owners shall, in good faith, reasonably pursue completion of the development. Each phase or completed portion of the project must independently meet the requirements

of this Agreement and the City's ordinances and regulations, such that it will stand alone, if no further work takes place on the project.

For the purpose of assuring compliance with this Agreement, so long as they comply with all safety rules of Owners and their contractor, representatives of City shall have the right of access to the Subject Area without charges or fees during the period of performance of Owners Undertakings. City shall indemnify, defend and hold Owners harmless from and against all liability, loss, damage, costs or expenses (including attorneys' fees and court costs) arising from or as a result of the death of a person or any accident, injury, loss or damage caused to any person, property or improvements on the Subject Area arising from the negligence or omissions of City, or its agents or employees, in connection with City's exercise of its rights granted in this paragraph.

ARTICLE VI REMEDIES

In the event of any default or breach of this Agreement or any of its terms or conditions, the defaulting Party or any permitted successor to such Party shall, upon written notice from the other, proceed immediately to cure or remedy such default or breach, and in any event cure or remedy the breach within thirty (30) days after receipt of such notice. In the event that such default or breach cannot reasonably be cured within said thirty (30) day period, the Party receiving such notice shall, within such thirty (30) day period, take reasonable steps to commence the cure or remedy of such default or breach, and shall continue diligently thereafter to cure or remedy such default or breach in a timely manner. In case such action is not taken or diligently pursued, the aggrieved Party may institute such proceedings as may be necessary or desirable in its opinion to:

- 6.1.1 Cure or remedy such default or breach, including, but not limited to, proceedings to compel specific performance by the Party in default or breach of its obligations; and
- 6.1.2 If the remedy of reversion is pursued, the defaulting Owners agree not to contest the reversion of the zoning on undeveloped portions of the Residential Area, by the City Council to the previous zoning on the property, and hereby holds the City harmless for such reversion of the zoning from C-TH (Condominium/Townhouse) to B-RP (Business and Research Park) and CP-1 (Planned Neighborhood Commercial).
- 6.1.3 If the remedy of reversion is pursued, the defaulting Owners agree not to contest the reversion of the zoning on undeveloped portions of the Subject Area, by the City Council to the previous zoning on the property, and hereby holds the City harmless for such reversion of the zoning from CP-1 (Planned Neighborhood Commercial) to B-RP (Business and Research Park).

extension or permissive curing of any particular default shall not operate to eliminate any of any other obligations and shall not constitute a waiver with respect to any other term, covenant or condition of this Agreement nor any other default or breach of this Agreement.

6.4 Rights of Owners. In the event of a default by Owners' assignee, Owners may elect, in their discretion, to cure the default of such assignee, provided, Owners' cure period shall be extended by thirty (30) days.
