198.0 feet, thence North 02°27' West 110.0 feet to the Point of Beginning. Containing 75.3 acres, more or less.

Refer to Exhibit "B" attached hereto and made a part hereof for additional provisions applicable to this Easement agreement.

This right of way and easement shall carry with it the right of ingress and egress to and from, and access on and along said right of way, with the right to use existing roads, for the purposes of constructing, inspecting, repairing, protecting and maintaining the pipeline and the removal or replacement of same at will, either in whole or in part, and the replacement of said pipeline with either like or different size pipe. During temporary periods Grantee may use such portions of the property along and adjacent to said right of way as may be reasonably necessary in connection with construction, maintenance, repair, removal or replacement of said pipeline.

Grantee may at any time permanently abandon said right of way and at its discretion may remove or abandon in place improvements constructed thereon and upon such abandonment action, Grantee may at its discretion execute and record a reconveyance and release hereof, whereupon this right of way and easement and all rights and privileges herein mutually granted shall be fully cancelled and terminated.

Grantee agrees that during the period of construction of the pipeline hereunder, or any subsequent altering, removing or replacing of said pipeline, it will leave or arrange for reasonable crossings over said right of way strip for the cattle and livestock of Grantor and his tenants and lessees.

Whenever it becomes necessary for Grantee, its agents or contractors to cut a fence on the above described lands, Grantee agrees, at its option, either to keep the gaps closed or guarded in such a manner so as to prevent the entrance and exit of cattle or other livestock through such gap, or to construct at such place or places substantial gates with dual locks and to furnish Grantor with one set of keys thereto. Before any such fence is cut by Grantee, same shall be braced in order to prevent slackening of the wires along the fence in each direction from Grantee's temporary gap.

In the event that the above described lands are being used for the growing of any crop which requires irrigation at the time the pipeline is under construction, Grantee agrees to install and operate flumes across the right of way at all times during such construction operations. Grantee further agrees not to dam, block or obstruct in any manner any irrigation canals, drainage ditches or creeks located on said lands, and also agrees to replace or repair any levees or banks disturbed or damaged by Grantee's operations on said lands.

Grantee agrees to bury its pipeline to a depth not less than forty (40) inches measured from the top of the pipeline to the average level of the original ground on the two sides of the ditch in which said line is laid, and where said pipeline crosses an irrigation canal or drainage ditch, the top of the pipe shall be buried at least forty (40) inches below the lowest point of the channel where said pipeline crosses any such drainage ditch or canal.

Grantee agrees to pay damages to crops, fences, timber and livestock of Grantor, his tenants and lessees, which may arise from the operation and maintenance of said pipeline.

Grantee shall remove all stakes or posts which it, its contractors or agents, may have put into the ground, and level all ruts and depressions caused by its construction operations. Grantee shall use such methods of weed control on the easement as are reasonably necessary to control the growth of noxious weeds.

The rights, titles and privileges herein granted shall be assignable in whole or in part, and shall be binding upon and inure to the benefit of the parties hereto, their respective heirs, executors, administrators, successors, assigns and legal representatives.

TO HAVE AND TO HOLD the above described right of way and rights unto the said Grantee, so long as said right of way is used for the purposes herein granted, and Grantor (jointly and severally, if more than one) hereby agrees to warrant and forever defend all and singular said premises unto Grantee, its successors and assigns, against every person whomsoever lawfully claiming or to claim the same or any part thereof.

In addition to all of the other rights and privileges which are reserved to Grantor as a matter of law, there is expressly reserved to Grantor all oil, gas and other minerals in, on and under the above described lands.

Grantor reserves the right to use and enjoy said property except for the purposes herein granted, but such use shall not hinder, conflict or interfere with Grantee's surface or subsurface rights hereunder or disturb its pipeline and no road, reservoir, excavation, change of surface grade, obstruction or structure shall be constructed, created or maintained on, over, along or within said right of way without Grantee's prior written consent.

It is mutually understood and agreed that this right of way grant as written covers and includes all of the agreements and stipulations between the parties and that no representations or statements, verbal or written, have been made modifying, adding to or changing the terms hereof.

Executed this 9 day of Apr, 19 90.
