In consideration of W. Raymond Hardman and Eva W. Hardman (hereinafter Hardman) executing an easement to Utah Power and Light Company (a copy of which is attached hereto as Exhibit 'A') Utah Power and Light Company agrees to do, perform and be bound by the following listed items in addition to whatever monies may be paid to Hardman for the purchase of said easement.

1. Drill and construct such additional wells as are necessary to assure Hardman of a continuous flow of three second feet of water to replace the three existing wells located under the proposed power line. Said wells will be drilled after the proposed line is in service, but shall be operational no later than July 1, 1979. Utah Power and Light Company shall take whatever further action is necessary to transfer Hardman's right in the existing wells to the new wells. In the event that it shall be impossible to obtain a three second foot flow of water, or if for any other reason Utah Power and Light Company cannot provide Hardman the use of such a flow of well water on the property where the existing wells are located, by July 1, 1979, Utah Power and Light Company shall pay to Hardman the fair market value of such a well as established on July 1, 1979.

2. During the construction of the powerline Utah Power and Light Company will maintain the integrity of the existing fence line with gates or such other means as shall be reasonably necessary to restrain horses and livestock at such points where the existing fence may be interrupted or damaged by Utah Power and Light Company, its contractors or subcontractors. All gates and openings will be locked when no work is actually being performed on the property to insure the security of equipment located on the property.

3. Utah Power and Light Company will hold Hardman harmless from liability to third persons for injuries and damages which occur as a result of the acts or omissions of Utah Power and Light Company, its contractors or subcontractors.

4. Utah Power and Light Company agrees to reimburse Hardman for all damages caused as a result of said construction on the subject property including compensation at the rate of \$10.00 per hour for work performed by Hardman at the request of Utah Power and Light Company or which may be necessary to protect his property from loss or damage.

DATED this 28th day of December, 1977.
