## INTRODUCTION

The Community Development and Renewal Agency of Cottonwood Heights, Utah (the "Agency"), following thorough consideration of the needs and desires of Cottonwood Heights City (the "City") and its residents, as well as the City's capacity for new development, has carefully crafted this draft Project Area Plan (the "Plan") for the Canyon Centre Community Development Project Area (the "Project Area"). This Plan is the end result of a comprehensive evaluation of the types of appropriate land-uses and economic development for the land encompassed by the Project Area which lies on the southwest corner of the intersection of Fort Union Boulevard and Wasatch Boulevard. The Plan is envisioned to define the method and means of development for the Project Area from its current state to a higher and better use. The City has determined that it is in the best interest of its citizens to assist in the development of the Project Area. It is the purpose of this Plan to clearly set forth the aims and objectives of this development, its scope, its mechanism, and its value to the residents of the City and other taxing districts.

The Project is being undertaken as a community development project pursuant to certain provisions of Chapters 1 and 4 of the Utah Community Development and Renewal Agencies Act (the "Act", Utah Code Annotated ("UCA") Title 17C). The requirements of the Act, including notice and hearing obligations, have been scrupulously observed at all times throughout the establishment of the Project Area.

## SECTION 1: DESCRIPTION OF COMMUNITY DEVELOPMENT PROJECT AREA

The Project Area lies entirely within the boundaries of the City and is located on the eastern side of the City on the southwest corner of the intersection of Fort Union Boulevard and Wasatch Boulevard. This area in particular serves as a gateway to Big Cottonwood Canyon and receives significant vehicle traffic on a daily basis which creates both opportunity and increased service demand. The property encompasses approximately 12.20 acres of land.

<b>Total</b>		<b>12.20</b>

The property encompasses approximately 12.20 acres of land.

As delineated in the office of the Salt Lake County Recorder, the Project Area encompasses all of the parcels detailed in TABLE 1: PROPERTY DESCRIPTION.

A map, site plan and legal description of the Project Area are attached hereto in APPENDIX A.

## SECTION 2: PROJECT AREA CHARACTERISTICS AND HOW THEY WILL BE AFFECTED BY COMMUNITY DEVELOPMENT

### LAND USES IN THE PROJECT AREA

The Project Area was formerly part of the Canyon Racquet Club and was purchased by Wasatch Gates LLC (the "Developer"). The Project Area currently consists primarily of vacant, undeveloped land. The Project Area is designated as mixed use. The mixed use zoning ordinance (*Chapter 19.36 of the City*

Code) allows the contemplated uses which include retail, office buildings, and hotel/condo (conditional uses). This Plan is consistent with the General Plan of the City and promotes economic activity by virtue of the land uses contemplated.

Any zoning change, amendment or conditional use permit necessary to the successful development contemplated by this Plan shall be undertaken in accordance with the requirements of the City's Code and all other applicable laws including all goals and objectives in the City's General Plan.

### **LAYOUT OF PRINCIPAL STREETS IN THE PROJECT AREA**

There are currently no City-owned roadways within the Project Area. Several roadways stub at or near the boundaries of the Project Area but do not substantially extend within the Project Area. There is one main roadway that dissects the Project Area and will provide the main access in and out of the project. This roadway comes off of Ft. Union Blvd. extends through the project and comes out onto Wasatch Blvd. The anticipated layout of principal streets within the Project Area is outlined in APPENDIX A - MAP, SITE PLAN AND LEGAL DESCRIPTION. The Agency anticipates that the development will require several new access roadways (private and/or public) and improvements to provide access through the Project Area. As these roadways are constructed access throughout the project will promote better traffic circulation and mitigate several health and safety issues that currently exist.

### **POPULATION IN THE PROJECT AREA**

The Project Area was laid out in order to create the least amount of disruption to existing commercial and residential structures. Currently, there are no existing residences within the Project Area. It is anticipated that as the Project Area develops that approximately 240 hotel units of which as many as 96 could be condo units in this Project Area. It is unlikely that this development will increase the day-time/total population of the City by more than an average yearly population of 150-200 people.

### **BUILDING INTENSITIES IN THE PROJECT AREA**

The current contemplated Project site plan is found in APPENDIX A and is estimated to include 155,000 sf of Hotel/Condo space, 110,000 sf of Class A Office space, 13,500 sf of restaurant/retail space, a 200,000 sf parking structure, and approximately 2 acres of open space, trails, and roadways which includes the potential development of an amphitheatre. This development is contemplated to be absorbed over a three to six year period.

## **SECTION 3: STANDARDS THAT WILL GUIDE COMMUNITY DEVELOPMENT**

### **DEVELOPMENT OBJECTIVES**

The Agency and City desire to maintain a high-quality development as a gateway to the canyon. Because the Project Area is primarily undeveloped and underutilized land and has a high-development potential, the Agency and City want to guide development in order to ensure development standards blend harmoniously with the character of the City.

### **DESIGN OBJECTIVES**

Development within the Project Area will be held to the highest quality design and construction standards, subject to (1) appropriate elements of the City's General Plan; (2) the planning and zoning

code of the City; (3) other applicable building codes and ordinances of the City; (4) Planning Commission review and recommendations; (5) and Agency review to ensure consistency with this Plan.

All development will be accompanied by site plans, development data, and other appropriate material clearly describing the development, including land coverage, setbacks, heights, off-street parking to be provided, and any other data determined to be necessary or requested by the City or the Agency.

All development shall provide an attractive environment, blend harmoniously with the adjoining areas, and provide for the optimum amount of open space and well-landscaped area in relation to the new buildings. In addition, it shall maintain maximum availability of off-street parking, and comply with the provisions of this Plan.

### **APPROVALS**

The Agency shall have the right to approve the design and construction documents of all development within the Project Area to ensure that all development within the Project Area is consistent with this Project Area Plan. The City shall notify the Agency of all requests for (1) zoning changes; (2) design approval; (3) site plan approval; (4) building permits within the Project Area. Projects within the Project Area shall be implemented as approved by the Agency and the City.

## **SECTION 4: HOW THE PURPOSES OF THE STATE LAW WOULD BE ATTAINED BY COMMUNITY DEVELOPMENT**

---

It is the intent of the Agency, with possible assistance from the City and in participation with potential developers and property owners, to accomplish this Project Area Plan, which will include development contemplated in this Project Area Plan. This will include the construction of public infrastructure, and the appropriate use of incentives permitted under the Act, to maximize this development as beneficial to the citizens of the City and the surrounding communities. This will strengthen the community's tax base through the provision of necessary goods and services demanded within the community and in furtherance of the objectives set forth in this Plan.

## **SECTION 5: HOW THE PLAN IS CONSISTENT WITH THE COMMUNITY'S GENERAL PLAN**

---

This Plan and the development contemplated thereby conform to the City's General Plan in the following respects:

### **ZONING ORDINANCES**

Any development contemplated within the Project Area shall conform to Chapter 19.36 - Mixed Use Zone of the City's Code of Ordinances. Additionally, any development must be in harmony with Chapter II - Land Use of the City's General Plan.

### **BUILDING CODES**

The Project will conform to all building codes that are currently imposed by the City including Chapter 15 - Building and Construction Ordinances of the City.

## PLANNING COMMISSION

The Planning Commission will review any future development proposals contemplated in the Project Area and make such recommendation thereon to the City Council as may be needed to facilitate development in the Project Area.

## SECTION 6: DESCRIPTION OF THE SPECIFIC PROJECTS THAT ARE THE OBJECT OF THE PROPOSED COMMUNITY DEVELOPMENT

---

As described above, the development within the Project Area will consist of retail, office, and lodging development. The contemplated development will ensure the highest and best use of the land from the perspective of the City and Agency Officials. The current contemplated development site plan can be found in APPENDIX A – MAP, SITE PLAN AND LEGAL DESCRIPTION.

## SECTION 7: WAYS IN WHICH PRIVATE DEVELOPERS WILL BE SELECTED TO UNDERTAKE THE COMMUNITY DEVELOPMENT

---

The City and Agency will select or approve such development as solicited or presented to the Agency and City that meets the development objectives set forth in this plan. The City and Agency retain the right to approve or reject any such development plan(s) that in their judgment do not meet the development intent for the Project Area. The City and Agency may choose to solicit development through an RFP or RFQ process, through targeted solicitation to specific industries, from inquiries to the City, EDCUtah, and/or from other such references.

The City and Agency will ensure that all development conforms with this plan and is approved by the City Planning Commission and City Council. All potential developers will need to provide a thorough development plan including sufficient financial information to provide the City and Agency with confidence in the sustainability of the development and the developer. Such a review may include a series of studies and reviews including reviews of the Developers financial statements, third-party verification of benefit of the development to the City, appraisals reports, etc.

## SECTION 8: REASONS FOR THE SELECTION OF THE PROJECT AREA

---

The Agency selected the Project Area primarily as a result of two factors: first, the high potential for development of this undeveloped and underutilized area near the mouth of the Canyon compelled the City and Agency to guide future development through both the planning process and through a financial process through the use of tax increment; second, the Area affords an immediate opportunity to strengthen the economic base of the communities and taxing entities within the County, broaden and diversify the tax base, and promote the development of job growth and goods and services to residents of the County, State, and tourists.

The specific boundaries of the Project Area were set after a review of the area by members of the Agency and their staff. The contemplated plan will not only result in a welcome, attractive, and conducive addition to the City, but will stimulate economic development in the area and in promoting a sustainable development.

## SECTION 9: DESCRIPTIONS OF THE PHYSICAL, SOCIAL AND ECONOMIC CONDITIONS EXISTING IN THE AREA

The Project Area consists of approximately 12 acres adjacent Wasatch Boulevard and Fort Union Boulevard. There is presently no development within the Project Area although several commercial and residential developments lay adjacent to the Project Area. The contemplated trail system and open space will provide an added benefit to the City along with the additional of needed commercial development. When completed, the Project will provide substantial economic, social and physical benefit to the residents of the City.

The Project Area lies on the Wasatch Fault which runs north/south through the middle of the Project Area. In addition to certain seismic building requirements, the proposed development will not construct any major structures on the fault line. Open space, trails, roadways, and the amphitheatre will be the only development contemplated on the fault line. The current property owner has contracted with an engineering geologist to perform a fault study. The development plan was overlaid on the fault study in order to appropriately reduce the risk of seismic structural damage. In addition, should the City implement any additional zoning or land use requirements related to property located along the fault, all future development will conform to those standards.

## SECTION 10: DESCRIPTIONS OF ANY TAX INCENTIVES OFFERED TO PRIVATE ENTITIES FOR FACILITIES LOCATED IN THE PROJECT AREA

Tax Increment arising from the development of the Project shall be used for public infrastructure improvements, Agency requested improvements and upgrades, both off-site and on-site improvements, land incentives, desirable Project Area improvements, and other items as approved by the Agency. Subject to provisions of the Act, the Agency may agree to pay for eligible costs and other items from taxes for any period of time the Agency may deem to be appropriate under the circumstances.

The following represents the total estimated sources and uses of the tax increment from participating entities.

## SECTION 11: ANALYSIS OF THE ANTICIPATED PUBLIC BENEFIT TO BE DERIVED FROM THE COMMUNITY DEVELOPMENT AREA

The City commissioned Lewis Young Robertson & Burningham, Inc. ("LYRB") to perform a cost/benefit analysis relating to the Project. LYRB found that all government entities received a positive public benefit from the development of the Project.

The following tables represent a summary of the cost/benefit analysis for the Project. Further detail is provided in APPENDIX B - COST/BENEFIT ANALYSIS.
