## **Background and Overview**

The North Ogden Urban Renewal and Community Development Agency (the "Agency"), following thorough consideration of the needs and desires of North Ogden City (the "City") and its residents, as well as the need of and capacity for new development, has prepared this Amended Community Development Project Area Plan (the "Amended Plan") for the North Ogden Downtown Community Development Project Area (the "Amended Project Area") described in more detail below. The purpose of the Amended Plan is to include 17.91 additional acres that have been recently annexed into the City, that are adjacent to the existing Project Area, and that are an integral part of the development planned for and taking place at the southern end of the existing Project Area and to remove two, tax-exempt parcels from the prior Amended Plan.

In accordance with the terms of this Amended Plan, the Agency will continue to encourage, promote and provide for the development of commercial, retail, and residential spaces within the Amended Project Area. The Amended Project Area is located along Washington Boulevard from approximately 1750 North to approximately 2800 North and covers 126.27 total acres and includes 63 parcels.

It is anticipated the Amended Project Area will continue to improve the City's downtown area through the creation and revitalization of retail shopping, residential development, and commercial office space. The Amended Project Area will bring jobs, amenities, and revenues to the area, providing financial resources to the Agency to invest in infrastructure and other improvements in the area. The Amended Project Area will generate additional property tax revenues and diversification through new business opportunities. The North and South ends of the Amended Project Area will contain the bulk of the new development, with other parcels in the Amended Project Area benefiting from improvements that revitalize Washington Blvd.

This Amended Plan will guide development within the Amended Project Area, including the capture and use of tax increment to construct new infrastructure needed to service new development and other improvements required to revitalize existing development on Washington Blvd. The purpose of this Amended Plan clearly sets forth the aims and objectives of the Agency and Amended Project Area, including its scope, improvements associated with infrastructure and revitalization and the mechanism for funding said improvements, and the value of the Amended Plan to the residents, businesses and property owners, and taxing entities in this area.

## **1. RECITALS OF PREREQUISITES FOR ADOPTING A COMMUNITY DEVELOPMENT PROJECT AREA PLAN**

- a) Pursuant to the provisions of §17C-4-101 of the Act, the governing body of the Urban Renewal and Community Development Agency of North Ogden City adopted a resolution authorizing the preparation of a draft Community Development Project Area Plan on June 25, 2015; (see Appendix A) and an Amended Project Area Plan on August 28, 2018
- b) Pursuant to the provisions of §17C-4-102(2)(a) and (b) of the Act, North Ogden City has a planning commission and general plan as required by law; and

- c) Pursuant to the provisions of §17C-4-102(1)(d) of the Act, the Agency will conduct one or more public hearings for the purpose of informing the public about the Amended Project Area and allowing public input as to whether the Amended Project Area Plan should be revised, approved or rejected.
- d) Pursuant to the provisions of §17C-4-102(1)(b) and (c) of the Act, the Agency made an Amended Project Area Plan available to the public at the Agency's offices during normal business hours, provided notice of the Public Hearing regarding the Project Area Plan, will conduct the Public Hearing on the Amended Project Area Plan on November 28, 2018 and consider public comments on the Amended Project Area Plan.

## **2. DEFINITIONS**

As used in this Amended Community Development Project Area Plan, which may or may not be denoted with the usage of the term being capitalized:

1. The term "Act" shall mean and include the Limited Purpose Local Government Entities – Community Development and Renewal Agencies Act in Title 17C, Chapters 1 through 5, Utah Code Annotated 1953, as amended, or such other amendments as shall from time to time be enacted or any successor or replacement law or act.
2. The term "Agency" shall mean the North Ogden City Urban Renewal and Community Development Agency, a separate body corporate and politic created by North Ogden City pursuant to the Act.
3. The term "Base Taxable Value or Base Year Taxable Value" shall mean the base taxable value of the property within the Amended Project Area from which tax increment will be collected, as shown upon the assessment roll last equalized before the date the Amended Project Area Plan is adopted by the North Ogden City legislative body; OR the agreed-upon value specified in a resolution or interlocal agreement as described under §17C-4-201(2).
4. The term "City" shall mean North Ogden City, Utah.
5. The term "Community" shall mean North Ogden City, Utah.
6. The term "Community Development" shall mean development activities within the community, including the encouragement, promotion, or provision of development.
7. The term "Developer" shall mean the entities investing in the development in the area.
8. The term "Effective Date" shall mean either the publishing or posting of notice of the North Ogden City legislative body's ordinance adopting the amended community development project area plan or a summary of the ordinance.

9. The term "Legislative Body" shall mean the City Council of North Ogden City which is the legislative body of the City and/or Community.
10. The term "Plan Hearing" means the public hearing on the Amended Project Area Plan required under Subsection 17C-4-102 of the Act.
11. The term "Amended Project Area Budget" shall mean the multi-year projection of annual or cumulative revenues, other expenses and other fiscal matters pertaining to the Amended Project Area that includes:
  - a. the Base Taxable Value of property in the Amended Project Area;
  - b. the projected Tax Increment to be generated within the Amended Project Area;
  - c. the amount of Tax Increment expected to be shared with other Taxing Entities;
  - d. the amount of Tax Increment expected to be used to implement the Amended Project Area Plan; and
  - e. the amount of Tax Increment to be used to administer the Amended Project Area.
12. The term "Amended Project Area Plan" or "Amended Plan" shall mean the written plan that, after its effective date and adopted pursuant to the provisions of the Act, guides and controls the community development activities within the Project Area.
13. The terms "Tax," "Taxes," "Property tax" or "Property taxes" includes all levies on an ad valorem basis upon real property, personal property, or other property, tangible or intangible.
14. The term "Taxing Entity or Taxing Entities" shall mean any public entity that levies a tax on property within the Amended Project Area.
15. The term "Tax Increment" shall mean the difference between the amount of property tax revenues generated each tax year by all Taxing Entities from the area designated in the Amended Project Area Plan from which Tax Increment is to be collected, using the current assessed value of the property and the amount of property tax revenues that would be or were generated from that same area using the Base Taxable Value of the property.

### **3. AMENDED PROJECT AREA BOUNDARIES [17C-4-103(1)]**

The Amended Project Area identified for study (see map in Appendix B and parcel list in Appendix C) consists of 126.27 total acres with 105.00 of those acres being non-right-of-way parcels. The Project Area is located in downtown North Ogden along Washington Boulevard and includes parcels stretching from 1700 North to 2800 North.

#### **4. GENERAL STATEMENT OF LAND USES, LAYOUT OF PRINCIPAL STREETS, POPULATION DENSITIES, BUILDING INTENSITIES AND HOW THEY WILL BE AFFECTED BY THE COMMUNITY DEVELOPMENT [17C-4-103(2)]**

##### **A. LAND USES IN THE AMENDED PROJECT AREA**

The existing land uses within the Amended Project Area are primarily vacant, residential, and retail, with some small areas of other commercial and exempt uses. The table below shows the detailed land uses by using the land and building type designations as determined and defined by the Weber County Assessor's Office.

TABLE 2: ACRES, VALUE AND SQUARE FEET BY LAND TYPE

<b>Total Taxable Value</b>		<b>\$17,199,612</b>	

\*\*All parcels - exempt, agricultural, or otherwise – with no development or improvements

##### **B. LAYOUT OF PRINCIPAL STREETS IN THE AMENDED PROJECT AREA**

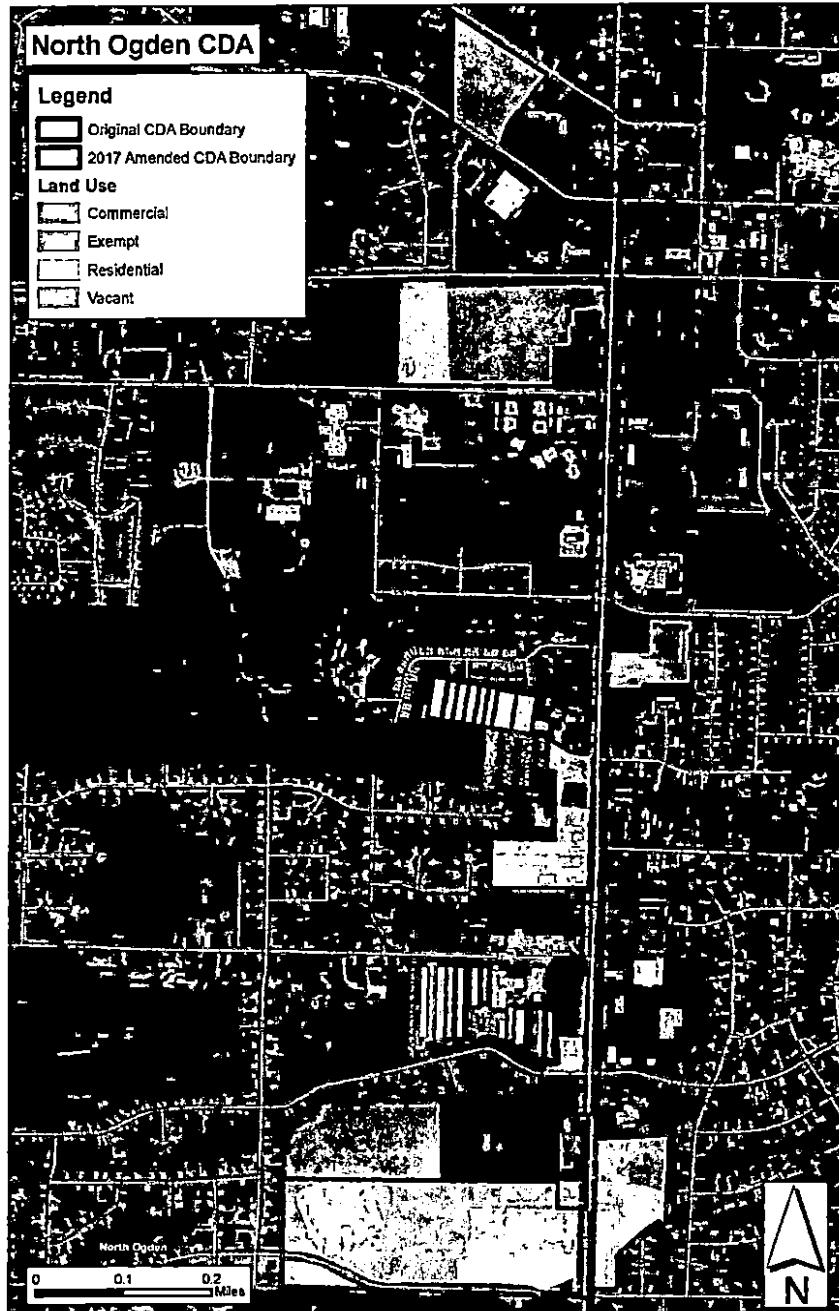

The principal street in the Amended Project Area is Washington Boulevard which runs north to south through the middle of the Amended Project Area, with frontage for most parcels in the Amended Project Area. Other streets that intersect the Amended Project Area running east to west include 2650 North, 2600 North, 2550 North, 2300 North, 2275 North, 2175 North, 2100 North, 2000 North, 1900 North and 1700 North. 2700 North partially borders the north side of the Amended Project Area.

##### **C. POPULATION DENSITIES IN THE AMENDED PROJECT AREA**

Nearly all development within the Amended Project Area is retail, office, commercial or is vacant land. There are 13 parcels totaling 19.05 acres classified as residential single-family homes, 1 parcel totaling 0.68 acres classified as a duplex, and 4 parcels for 1.4 acres classified as 3-4 unit dwellings within the

Project Area, for a total of 31 dwelling units. Assuming an average household size of 3.23 persons per household,<sup>1</sup> the estimated population in the Amended Project Area is 100 people. With 126.27 total acres in the Amended Project Area, the Amended Project Area is 0.1973 square miles. Dividing the population by the square miles gives an existing population density of about 508 people per square mile.

The Amended Project Area Plan currently contemplates the addition 236 senior living units, as well as 489 apartment and townhouse units. Assuming an average household size of 1.5 persons per unit for the senior living, and an average household size of 3.23 persons for all other households, the population is projected to increase by 1,933 people within the Amended Project Area. This would increase the population density within the Amended Project Area to about 10,307 people per square mile, although this is a much smaller area than a full square mile. An increase in residential density will provide more rooftops to support commercial development.

<sup>1</sup> 2013 ACS 5-year estimate for North Ogden City

**D. BUILDING INTENSITIES IN THE AMENDED PROJECT AREA**

The Amended Project Area currently has 164,977 square feet of building space, resulting in an average density of 1,307 square feet per acre,<sup>2</sup> or a floor area ratio (FAR)<sup>3</sup> of 0.03.<sup>4</sup>

Proposed development includes approximately 982,768 square feet of residential and commercial space. This is an average of 7,783 building square feet per acre, or an average FAR of 0.18.

## **5. STANDARDS THAT WILL GUIDE THE COMMUNITY DEVELOPMENT [17C-4-103(3)]**

The general standards that will guide the community development are as follows:

**Development Objectives**

The following objectives will be pursued in order to benefit the City and its residents:

1. Ensure that development improves the standard of function, quality and appearance of the Project Area;
2. Create a thriving downtown and a cohesive Main Street feel on Washington Blvd. with successful commercial businesses supported by adequate housing;
3. Promote the development of the Amended Project Area to enhance the economic health of the community by increasing the tax base and providing North Ogden residents access to goods and services; and
4. Provide utilities, streets, curbs, sidewalks, parking areas, and landscaping to give the area an improved look and to attract and encourage expanded business activity.

**Design Objectives**

Developers will be expected to utilize high quality design and development standards. Each development proposal will be considered subject to: (1) appropriate elements of the City's General Plan; (2) the land use code of the City; (3) other applicable building codes and ordinances of the City; and (4) a review and approval by the Agency to ensure that the development is consistent with this Amended Plan.

The North Ogden City Code Subsection 11-8D, Design Standards for Commercial Development, will dictate the design standards for commercial development. Properties on Washington Blvd. will also be required to abide by the *North Ogden City Planning Commission Landscaping Review Guidelines for Entry-way Developments*.

<sup>2</sup> Calculated by dividing the 164,977 existing building square feet by the total acres for the area (126.27 acres)

<sup>3</sup> FAR is defined as the ratio of building square feet to total land area.

<sup>4</sup> Calculated by dividing the building density (1,307 sq ft) by the number of square feet in an acre (43,560)

### **Activities Involved**

Possible activities contemplated in carrying out the Amended Plan in the Amended Project Area include the acquisition, clearance, construction, or rehabilitation of properties in the Amended Project Area.

- **Acquisition and Clearance:** Parcels of real property located in the Amended Plan Area may be acquired by purchase at fair market value.
- **Construction:** New construction may be initiated in order to encourage additional private sector building and investment.
- **Rehabilitation:** Properties may be sufficiently rehabilitated to insure a reasonable remaining economic life.

### **Implementation of Projects**

The North Ogden City Planning Commission and/or the City Council shall approve the design of all development within the Amended Plan Area to ensure that such development within the Amended Plan Area is consistent with this Amended Plan and as required by City Code. City staff shall notify the Agency of all requests for (1) zoning changes, (2) design approval, (3) site plan approval, and (4) building permits within the Amended Project Area. Projects within the Amended Plan Area shall be implemented as approved by the Planning Commission and/or the City Council.

## **6. HOW THE PURPOSES OF THE ACT WILL BE ATTAINED BY THE COMMUNITY DEVELOPMENT [17C-4-103(4)]**

Title 17C of the Utah Code contains no explicit statement of purpose, although it contains the following definition of "community development":

"Community development" means development activities within a community, including the encouragement, promotion, or provision of development [17C-1-102 (16)].

The purposes of Title 17C will be attained through the establishment of the Amended Project Area by the following:

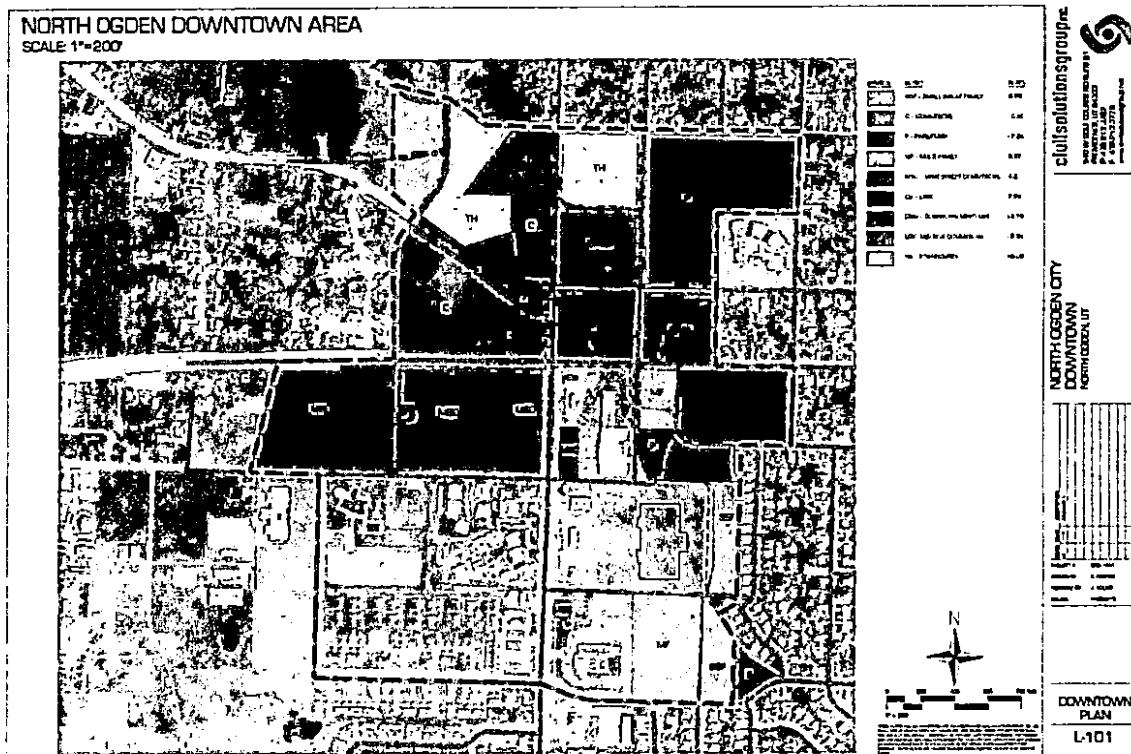

- Increased employment and income opportunities for City residents
  - Commercial development within the Amended Project Area will increase the number of jobs available to residents within the City.
- Improved access to goods and services for residents
  - Commercial development within the Amended Project Area will provide a broader variety of goods and services to residents within the City limits.
- Increased tax base for the City and the other taxing entities with claim on the Amended Project Area

- Commercial development inside the Amended Project Area will increase the property and sales tax base by adding new structures and commercial activity. This increased tax base will expand the ability for government to perform essential services with no increased burden on taxpayers.

## **7. THE AMENDED PLAN IS CONSISTENT WITH AND WILL CONFORM TO THE COMMUNITY'S GENERAL PLAN [17C-4-103(5)]**

The City's General Plan was adopted in September 2015. The chapter, "Downtown and Southtown," clearly states that two nodes should be established in the downtown area – one at the north and one at the south of State Street. This is exactly in accordance with the Amended Project Area Plan.

Figure 1: Downtown Plan from General Plan

The General Plan further identifies the following characteristics that should be encouraged in the downtown, many of which are a part of this Amended Project Area Plan:

- Transit and excellent pedestrian connections
- A variety of stores

- Residences
- Offices
- Wide pedestrian friendly and attractive sidewalks
- Well-lit streets with unique light fixtures
- A variety of restaurants
- Gathering places that include events and entertainment
- People of all ages

As stated previously in this Amended Plan, the purpose of the Amended Project Area is to encourage, promote and provide for the provision of retail, office and residential spaces – a mix of uses – in the downtown.

## **8. DESCRIPTION OF ANY SPECIFIC PROJECT OR PROJECTS THAT ARE THE OBJECT OF THE PROPOSED COMMUNITY DEVELOPMENT [17C-4-103(6)]**

Development at the North Node of the Amended Project Area is anticipated to include 230,668 square feet of commercial space, including space for retail anchors, office space and other pads. The location of the detention basin on 2600 North currently limits the potential for commercial development in a key location. Because the community would be better served by seeking a better and higher use for that land, the agency proposes identifying a new location for a detention basin and preparing the current detention basin site for development. The redevelopment of the Smith's building at the southeast corner of Washington Blvd. and 2600 North is a key concern for the City. The size of the existing building is such that extended vacancy at that location would be a drain on the aesthetics and economics of the City.

Development at the South Node of the project area is anticipated to be a mixed-use project involving a mix of commercial and residential development, including senior housing.

## **9. HOW PRIVATE DEVELOPERS WILL BE SELECTED AND IDENTIFICATION OF CURRENT DEVELOPERS IN THE PROJECT AREA [17C-4-103(7)]**

The majority of the property in the Amended Project Area is privately owned, and the Agency anticipates the landowners in the Amended Plan Area will undertake development of their property and select any partners or outside developers at their discretion. In the event that owners do not wish to participate in development or redevelopment in compliance with the Amended Plan, the Agency reserves the right pursuant to the provisions of Title 17C of the Utah Code to acquire parcels through negotiation with property owners, to encourage other owners to acquire other property within the Amended Plan Area, or to select non-owner developers by private negotiation, public advertisement, bidding or solicitation of written proposals, and by so doing encourage or accomplish the desired development of the Amended Project Area.

At the present time, Amsource Development, Inc. has indicated an interest in redeveloping the North Node and Meritage Companies, LLC has indicated an interest in redeveloping the South Node.

## **10. REASONS FOR THE SELECTION OF THE AMENDED PROJECT AREA [17C-4-103(8)]**

The Amended Plan Area was selected by the Agency because of the immediate opportunity for development to significantly strengthen the City's economic base. The Amended Plan Area contains a portion of the City that is desirable for development because of:

- Its location along the Washington Blvd. commercial corridor
- The presence of a number of older dilapidated structures that detract from the aesthetics and economic vitality of the City
- The presence of undeveloped parcels that currently generate very little tax revenue

Specific boundaries of the Amended Plan Area were arrived at by the Agency after a review of the area by members of the Agency staff and a third-party consulting firm. Planned treatment of this area is intended to stimulate development to the degree necessary for sound long-range economic growth in the Amended Plan Area and to encourage further development of real property in the surrounding areas.

## **11. DESCRIPTION OF THE PHYSICAL, SOCIAL AND ECONOMIC CONDITIONS EXISTING IN THE AREA [17C-4-103(9)]**

### **A. PHYSICAL CONDITIONS**

The proposed Amended Project Area consists of approximately 126.27 acres with 105.00 acres attributable to non-street parcels, as shown on the Amended Project Area map in Appendix C. The Amended Project Area, while mostly developed along Washington Boulevard, has significant vacant space of 50.82 acres. Developed property along Washington Boulevard includes commercial, public and residential uses. There are also several parcels along Washington Boulevard that are either vacant or otherwise under-utilized, indicating potential for redevelopment and increased property values.

### **B. SOCIAL CONDITIONS**

There are 13 single-family residential and 5 multi-family residential parcels within the Amended Project Area. There is no demographic data available for those properties due to the limited geographic size of the Area.

It is anticipated that the addition of 236 senior-living beds and 489 apartment and townhouse units in the Amended Project Area will increase the population by about 1,933 residents. The Amended Project Area has workers coming from other areas to work in already-existing commercial businesses. The Amended Project Area Plan will increase the number of workers traveling to the Amended Project Area. It is anticipated, therefore, that the proposed Amended Project Area will grow the City, County, and region's economy, quality of life and reputation.

#### C. ECONOMIC CONDITIONS

The Amended Project Area is nearly split evenly between developed and vacant parcels. Most of the developments are along Washington Boulevard, and include both commercial and residential uses. Tenants include a pharmacy, banks, restaurants and other food services, auto repair and maintenance, and other retail. As of the base year, the average improvement value per acre (for improved acres only) in the Amended Project area was \$205,734 per acre<sup>5</sup> which is low, indicating potential for redevelopment and increased improvement values.

### **12. TAX INCENTIVES OFFERED TO PRIVATE ENTITIES FOR FACILITIES LOCATED WITHIN THE AMENDED PROJECT AREA [17C-4-103(10)]**

The Agency intends to use 35 percent of the property tax increment from the School District,<sup>6</sup> 75 percent of the increment from the City and 50 percent of the property tax increment generated within the Amended Project Area from the remaining taxing entities for a period of 15 years. The anticipated total tax increment to be generated over the 15-year period, for all taxing entities, is \$14.8 million.

The Agency intends to request the adoption of a Resolution from the Taxing Entities or negotiate and enter into one or more agreements with Weber County, Weber School District, Weber Basin Water Conservancy District, Central Weber Sewer Improvement District, Ben Lomond Cemetery Maintenance District, Bona Vista Water Improvement District, Weber County Mosquito Abatement District, Weber Area Dispatch 911 and Emergency Services District, North View Fire District and Weber Fire District to secure receipt of a portion (35 percent from the School District and 50 percent from the other taxing entities) of the property tax increment generated within the Amended Project Area that would otherwise be paid to those Taxing Entities.

<sup>5</sup> Calculated by taking the total improvement values in the project area (\$10,989,621) and dividing by the 53.42 improved acres in the base year.

<sup>6</sup> The Agency is requesting a lower percentage from the School District due to the fact that there will be some residential development at the southern end of the Project Area.

The Amended Project Area Budget (attached as Appendix D) shows anticipated tax increment receipts, and the estimated eligible development costs to be reimbursed. The Base Year Taxable Value is 2014 and includes all real and personal property. One important aspect of this Amended Plan is that the storm detention property is now tax exempt, yet in a favored commercial location. With this Amended Plan, the tax-exempt storm drain property will move on to the tax rolls as commercial property. The same may be said for the old North Ogden Public Works site.

The estimated increased tax revenues, over and above the base year tax revenues already being received by the Taxing Entities, to be received by the entities during the period that the Agency is collecting tax increment is shown in the following table. It is based on 65 percent of the incremental tax revenues going to the School District, 25 percent to the City and 50 percent of the incremental tax revenues being paid to the other Taxing Entities for a period of 15 years.

TABLE 3: TOTAL INCREMENTAL PROPERTY TAX REVENUES IN PROJECT AREA TO TAXING ENTITIES, YEARS 1-15

	Total Years 1-15	NPV Years 1-15

<b>TOTAL</b>	<b>\$8,922,678</b>	<b>\$5,975,075</b>

During the same 15-year time period, the Agency could receive an estimated \$7.6 million, with a net present value of \$5.1 million, for projects that are needed in the area.<sup>7</sup>

The Amended Project Area Budget, included as Appendix D provides a year-by-year estimate of the amount of Tax Increment generated and to be shared among the Taxing Entities.

Increment is needed in order to pay for the following infrastructure and improvements or like infrastructure and improvements to the Amended Project Area as determined by the Agency. While flexibility is granted to the Agency in determining expenses in the Amended Project Area, the following is the Agency's best estimate of projects and accompanying expenditures needed in the Amended Project Area. In addition to the projects listed below, the Agency intends to keep four percent of the Agency revenues for administrative costs associated with administering the RDA. The projected administrative cost is approximately \$304,799.

### 13. ANALYSIS OR DESCRIPTION OF THE ANTICIPATED PUBLIC BENEFIT TO BE DERIVED FROM THE COMMUNITY DEVELOPMENT [17C-4-103(11)]

#### A. BENEFICIAL INFLUENCES UPON THE TAX BASE OF THE COMMUNITY

The beneficial influence on the community tax base will happen through a significant increase of the property and sales tax base of the Amended Project Area. As development occurs, more customers will be drawn to the greater geographic area generating sales tax revenues and stimulating investment. Existing businesses in the vicinity may be inclined to reinvest in their properties to take advantage of the greater customer base. All of these improvements will positively contribute to the community's tax base.

It is expected that the City will gain significant incremental tax benefits in both sales and property taxes. New commercial development that could occur in the Amended Project Area has the potential to increase property tax revenues to the taxing entities by approximately \$1.2 million annually at the completion of the Project Area in 15 years.

TABLE 6: INCREMENTAL PROPERTY TAX REVENUES IN PROJECT AREA TO AGENCY AFTER 15 YEARS

Taxing Entity	Annual Tax Increment Amount
Weber County	\$302,813
Weber County School District	\$532,513
North Ogden City	\$129,252

Taxing Entity	Annual Tax Increment Amount
Weber Basin Water Conservancy District	\$16,238
Central Weber Sewer Improvement District	\$68,380
Ben Lomond Cemetery Maintenance District	\$6,773
Bona Vista Water Improvement District	\$19,497
Weber County Mosquito Abatement District	\$11,505
Weber Area Dispatch 911 and Emergency Services District	\$24,724
North View Fire District	\$89,187
Weber Fire District - Bond (est. 1/1/06)	\$6,824
<b>TOTAL</b>	<b>\$1,207,707</b>

#### B. ASSOCIATED BUSINESS AND ECONOMIC ACTIVITY LIKELY TO BE STIMULATED

Other business and economic activity likely to be stimulated includes business, employee and construction expenditures. There are significant opportunities for increased economic development and tax generating development that can occur within the immediate sphere of influence of the Project Area that otherwise may not occur in a timely basis or at the same level of increased development and private investment.

##### 1. JOB CREATION

Approximately 540 new jobs could be created in the Amended Project Area if development plans are similar to those projected in the Amended Project Area Plan and Budget.<sup>8</sup> It is anticipated that the business owners and employees of the Amended Project Area facilities will directly or indirectly purchase local goods and services related to their operations from local or regional suppliers. These supply chain purchases are expected to increase employment opportunities in the related businesses of office equipment, furniture and furnishings, office supplies, computer equipment, communication, security, transportation and delivery services, maintenance, repair and janitorial services, packaging supplies, office and printing services.

Employees will make many of their purchases near their workplace, assuming that goods and services are available. These will most likely include purchases for: lunchtime eating, gasoline and convenience store, personal services such as dry cleaning and haircuts, and auto repair. In addition, there may be limited purchases for gifts, hobbies, etc., if such goods are available.

The following summarizes the benefits to the City, County, and region:

- Provide an increase in direct purchases in the City, County, and region.
- Complement existing businesses and industries located within the City by adding new employees who may live and shop and pay taxes in the City, County and the region.

<sup>8</sup> Assumes 450 sf per employee for the commercial development. There are 243,268 square feet of commercial development proposed.

- Provide an increase in indirect and induced ("multiplier") impacts for business purchases, including purchases by employees and their households.
  - The types of expenditures by employees in the area will likely include convenience shopping for personal and household goods, lunches at area restaurants, convenience purchases and personal services (haircuts, banking, dry cleaning, etc.). The employees will not make all of their convenience or personal services purchases near their workplace, and each employee's purchasing patterns will be different. However, it is reasonable to assume that a percentage of these annual purchases will occur within close proximity to the workplace (assuming the services are available).

## 2. CONSTRUCTION JOBS AND EXPENDITURES

Economic activity associated with the development will include construction jobs and wages. Incremental value associated with new construction is estimated at approximately \$65.3 million (does not include land values). Assuming that 40 percent of the cost is for labor, with 40 percent spent on supplies, and the remaining 20 percent left for developer overhead and profit, results in about \$26.1 million for labor and \$26.1 million for building supplies. Any demolition costs that might be incurred would be in addition to this amount.

To summarize, the creation of the Amended Project Area and adoption of the Amended Project Area Plan is beneficial to the City, County, and region for the following projected impacts:

- Increased tax base that will provide additional tax revenues to the various Taxing Entities;
- Creation of approximately 540 jobs in the Amended Project Area;
- Increased spending of roughly \$26.1 million on construction wages;
- Increased spending in the local area for construction supplies, from construction worker expenditures for lunchtime eating, gas, etc., and for purchases by full-time employees who work in the Project Area;
- Creation of a more unified shopping and office district in North Ogden;
- Increased tax revenues of \$1.2 million annually to the Taxing Entities after the amended project area expires;
- Relocation of a storm drain detention basin at a key commercial site;
- Revitalization of unsightly and deteriorating properties; and
- Added economic diversification to the community.

It is anticipated, therefore, that the proposed Amended Project Area will grow the City, County, and region's economy, quality of life and reputation.

## Overview of Amended Project Area Budget

The purpose of this document, "Overview of Amended Project Area Budget," is to provide background and explanation for the Amended Project Area Budget. While Utah Code does not require a written explanation of the Budget, this document is designed to aid the general public and taxing entities in better understanding the Budget.

### Development Assumptions

The Agency has worked closely with developers to estimate future development in the Amended Project Area. Assumptions are that, within five years (if infrastructure improvements are made), commercial development will increase by 243,468 square feet, and residential will see the addition of 725 units. Approximately 236 of the residential units are anticipated to be senior housing. Additional development will include infill and redevelopment of blighted properties along Washington Blvd.

### Taxing Entities

The Amended Project Area is located in four tax districts within Weber County (10,273,433 and 450). The taxing entities, along with their tax rates as of 2015 and the inception of this project, are as follows:

TABLE 1: TAX RATES

Taxing Entity	Tax Rate
Weber	0.003711
Weber County School District	0.006526
North Ogden City	0.001584
Weber Basin Water Conservancy District	0.000199
Central Weber Sewer Improvement District	0.000838
Ben Lomond Cemetery Maintenance District	0.000083
Bona Vista Water Improvement District	0.0003
Weber County Mosquito Abatement District	0.000141
Weber Area Dispatch 911 and Emergency Services District	0.000303
North View Fire District	0.001093
Weber Fire District - Bond (est. 1/1/06)	0.000105

### Base Year Taxable Value

The base year taxable value will be calculated from the 2014 taxable value for the area as follows:

TABLE 2: 2014 BASE YEAR TAXABLE VALUE – AMENDED PROJECT AREA

North Ogden Land/Building Type	Total Acres	Total Base Year Taxable Value	Total Building Square Feet
Commercial	22.99	\$12,837,428	126,965
Commercial Vacant	5.52	\$774,673	-
Commercial Exempt	3.15	\$0	782
Residential	21.13	\$1,751,359	32,247
Residential Vacant	20.32	\$154,054	2,400
Residential Exempt	6.92	\$0	-
Vacant**	24.97	\$26,430	2,583

<b>Total Real Property</b>	105.00	\$15,543,944	164,977
<b>Total Personal Property</b>		\$1,655,668	
<b>Total Taxable Value</b>		<b>\$17,199,612</b>	

The base year tax revenues in the Amended Project Area are estimated at approximately \$250,969 annually, with total base year revenues of \$3.76 million over the 15-year period. The base year revenues represent those taxes already flowing to the various taxing entities, based on their 2014 valuation. There are no changes to this revenue stream for the taxing entities due to the creation of a CDA or amending the CDA.

### Uses of Tax Increment

The projected uses of tax increment within the Amended Project Area are as follows:

- Relocation of storm drain detention basin
- ROW for access along 2700 North
- Burying of power lines
- Other infrastructure improvements
- Waterline
- Pedestrian bridge
- Streetscape improvements

Total costs are estimated at approximately \$8.47 million.

TABLE 7: ESTIMATED COSTS AND USES OF FUNDS

Expenditures	Total Amount	Included in Budget	Funded Through Other Means
