1. GENERAL PURPOSES: These covenants are made for the purpose of creating and keeping the subdivision, insofar as possible, desirable, attractive, beneficial and suitable in architectural design, materials and appearances; and guarding against fires and unnecessary interference with the natural beauty of the subdivision; all for the mutual benefit and protection of the owners of lots in the subdivision.

Any exception, if any, must be made with the written consent of the Environmental Control Committee.

4. WATER AND SEWAGE: No individual water supply or sewage disposal system shall be permitted on any lot or building site unless such system is located, constructed and equipped in accordance with the requirements, standards and recommendations of the Federal, State or local public authorities and the Environmental Control Committee as established by Timber Lakes Corporation; and no outdoor toilets, outdoor clothes poles or clothes lines, and no storage of vehicles or material of any kind to be permitted, without written consent of the Environmental Control Committee.

7. RESIDENTIAL USE: No building shall be used for any purpose other than residential, except on lots designated by Timber Lakes Corporation for business or commercial use.

8. APPROVAL OF CONSTRUCTION PLANS: All plans and specifications for any structure or improvement whatsoever to be erected on or moved upon or to any lot, and the proposed location thereon any lot or lots, the construction material, the roofs and exterior color schemes, any later changes or additions after initial approval thereof and remodeling, reconstruction, alterations, or additions thereto on any lot shall be subject to and shall require the approval in writing before any such work is commenced of the Environmental Control Committee (herein called "Committee" as the same is from time to time composed).

A filing fee of \$20.00 shall accompany the submission of such application plans to defray Committee expenses.

The Committee shall approve or disapprove plans, specifications and details within thirty (30) days from the receipt thereof. One (1) set of said plans and specifications and details with the approval or disapproval endorsed thereon, shall be returned to the person submitting them and the other copy thereof shall be retained by the Committee for its permanent files. The Committee shall have the right to disapprove any plans, specifications or details submitted to it in the event the same are not in accordance with all of the provisions of these Restrictions. If the design or color scheme of the proposed building or other structure is not in harmony with the general surroundings of such lot or with the

adjacent buildings or structures; if the plans and specifications submitted are incomplete; or in the event the Committee deems the plans, specifications or details, or any part thereof, to be contrary to the interests, welfare or rights of all or any part of the real property subject hereto, or the owners thereof. The decisions of the Committee shall be final.

The Committee shall not be responsible in any way for any defects in any plans or specifications submitted, revised or approved in accordance with the foregoing provisions, not for any structural or other defects in any work done according to such plans and specifications.

The owner may be charged for any and all necessary expenses incurred in cleaning, repairing or removing said material.

19. WATER: Upon the installation of a water main adjacent to each lot in Plats 9 through 14 and upon water being available in the main, the owner of each lot shall pay to the Timber Lakes Corporation, or assigns, a \$24.00 per year availability charge, payable annually in advance.
