No building shall be erected, altered, placed, or permitted to remain on any lot other than one detached single-family dwelling not to exceed one and one-half stories in height and a private garage or carport for not more than two cars.

B. ARCHITECTURAL CONTROL: No building shall be erected, placed or altered on any lot until the construction plans and specifications and a plan showing the location of the structure have been approved by the Architectural Control Committee as to quality of workmanship and materials, harmony of external design with existing structures, and as to location with respect to topography and finish grade elevation. No fence or wall shall be erected, placed or altered on any lot nearer to any street than the minimum building setback line unless similarly approved. Approval shall be as provided in M.

C. DWELLING COST, QUALITY AND SIZE: No dwelling shall be permitted on any lot at a cost of less than \$14,000.00, including lot, based upon cost levels prevailing on the date these covenants are recorded, it being the intention and purpose of the covenants to assure that all dwellings shall be of a quality of workmanship and new materials substantially the same or better than that which can be produced on the date these covenants are recorded at the minimum cost stated for the minimum permitted dwelling size. The ground floor area of the main structure, exclusive of one-story open porches and garages, shall be not less than 900 square feet for a one-story dwelling, nor less than 850 square feet for a dwelling of more than one story.

D. BUILDING LOCATION: (1) No building shall be located on any lot nearer to the front lot line or nearer to the side street line than the minimum building setback lines shown on the recorded plat. In any event no building shall be located on any lot nearer than 20 feet to the front lot line, or nearer than 20 feet to any side street line, except that a residence can be built on Lot 8, which shall be located no nearer than 15 feet to the front lot line.

(2) No building shall be located nearer than 8 and 12 feet to an interior lot line, except that no side yard shall be required for a garage or other permitted accessory building located 45 feet or more from the minimum building setback line. No dwelling shall be located on any interior lot nearer than 25 feet to the rear lot line.

(3) For the purposes of this covenant, eaves, steps, and open porches shall not be considered as a part of a building, provided, however, that this shall not be construed to permit any portion of a building, on a lot to encroach upon another lot.

E. LOT AREA AND WIDTH: No dwelling shall be erected or placed on any lot having a width of less than 70 feet at the minimum building setback line nor shall any dwelling be erected or placed on any lot having an area of less than 6700 square feet, except that a dwelling may be erected or placed on Lot 8 as shown on the recorded plat.

F. EASEMENTS: Easements for installation and maintenance of utilities and drainage facilities are reserved as shown on the recorded plat and over the rear five feet of each lot. Within these easements, no structure, planting or other material shall be placed or permitted to remain which may damage or interfere with the installation and maintenance of utilities, or which may change the direction of flow of drainage channels in the easements, or which may obstruct or retard the flow of water through drainage channels in the easements. The easement area of each lot and all improvements in it shall be maintained continuously by the owner of the lot, except for those improvements for which a public authority or utility company is responsible.
