**GRANT OF EASEMENT  
FOR CONSTRUCTION AND MAINTENANCE OF  
WASTEWATER COLLECTION AND TRANSPORTATION PIPELINE(S)**

Robert E. Taylor and Marcene F. Taylor, Trustees of the Marcene F. Taylor Living Trust, dated November 9, 2004, (collectively the "Grantor"), who is the owner of the real property described on Exhibit A attached hereto and incorporated herein by this reference (the "Grantor's Property"), hereby conveys with respect to the Grantor's property only, to the Cottonwood Improvement District, a special District of the state of Utah (the "District" or "Grantee"), of Salt Lake County, Utah, for good and valuable consideration, the receipt and adequacy of which is hereby acknowledged, a non-exclusive, permanent easement and right-of-way, more specifically described on Exhibit B attached hereto (the "Easement"), for use in common with others, for the purpose of constructing, operating and maintaining one or more underground pipelines in the Easement granted herein for the collection and transportation of wastewater as permitted by the District, in the exclusive discretion of the District, through and under that portion of the Grantor's Property that the Easement transcends (the "Easement Property"), together with a perpetual right of ingress and egress to, from, over and along the Easement Property and with the right to operate, maintain, repair, replace, augment and/or remove the pipelines deemed necessary by the District for the collection and transportation of wastewater.

Grantee shall bear the reasonable costs of restoration of the construction, maintenance, repair, replacement, augmentation or removal of improvements which Grantee, in its discretion, must remove to exercise the rights of Grantee to use the Easement granted herein for its intended purpose. Grantee shall restore all permanent and non-structural surface improvements to as near the condition of the disturbed improvement prior to the activities of Grantee as reasonably possible together with the areas of Grantors' Property, including the Easement Property, disturbed by such activities of Grantee. In the event Grantee must remove any trees, Grantee shall replace the tree with a similar size and species of tree if such tree is available at a local nursery. If the same size or species of tree is not available at a local nursery, Grantee, in consultation with Grantor, shall replace the tree with an alternative tree which is available at a local nursery. Grantee shall not be required to compensate Grantor for the difference in value between the removed tree and the replacement tree. Grantee shall provide Grantor with at least 10 days prior written notice before conducting any such activities, unless such activities are necessary due to an emergency where the giving of prior notice would not be prudent or practical, in which case Grantee shall provide notice to Grantors as soon as reasonably possible. All activities conducted by Grantee on the Easement Property shall be conducted in a diligent and expeditious manner so as to minimize, to the extent reasonably practicable, any interference with Grantor's use of Grantor's Property, including the Easement Property, and Grantee shall

reasonably cooperate with Grantors in coordinating the timing, location, and extent of Grantee's activities on the Easement Property.

Grantors and their respective successors in interest hereby forever relinquish the right to construct any structural improvement on the Easement Property which would interfere with the operation, replacement or repair of the pipelines constructed and maintained under the provisions of the Easement, unless expressly agreed to in writing by the Grantee. Grantors may, without obtaining the consent of the Grantee, plant or install trees, bushes, flowers, planter boxes, decorative lighting, berms or other similar improvements on the surface of the Easement Property. Grantee hereby consents to the paving or installation of other hardscaping over the surface of the Easement Property.

The Easement granted herein is subject to the condition that the Grantee shall indemnify and hold harmless, the Grantors, their heirs and successors against any and all liability caused by the acts of the Grantee, their contractors or agents, during the construction, operation, removal, repair, replacement, augmentation or maintenance of the sewer pipeline provided for in this easement. The Grantors' right to indemnification or to be held harmless by the Grantee under the terms of this paragraph is expressly conditioned upon prompt and immediate notice by Grantors, or any one of them, to the Grantee of any claim or demand of which it has actual notice which would cause a claim for indemnification against the Grantee and upon the Grantee's right to defend any claim against the Grantors which would cause a claim of indemnification against the Grantee. This provision shall not be interpreted or construed to waive the rights of the Grantee to the affirmative defenses to claims provided under the Utah Governmental Immunity Act.

Any and all notices required or permitted hereunder shall be given in writing and personally delivered, delivered by certified mail, return receipt requested, postage prepaid, or delivered by generally recognized overnight courier providing proof of delivery, addressed as follows:

To Grantor:	Robert E. and Marcene F. Taylor, Trustees of the Marcene F. Taylor Living Trust, dated November 9, 2004 1980 E. Forest Bend Dr. Cottonwood Heights, UT 84121
To Grantee:	Cottonwood Improvement District 8620 South Highland Drive Sandy, Utah 84093

IN WITNESS WHEREOF, the parties have caused this Agreement to be executed by their duly authorized representatives effective as of the 11 day of April, 2007.
