Commercial Best Management Practices (BMPs) are those measures and/or practices to be maintained by the property owner or operator to prevent illicit discharges, pollutants and other contaminants from entering the city storm water system. These measures and practices are to be implemented upon completion of construction activities, to be conducted and maintained in perpetuity and will typically address the following:

- * ~~Inspection and cleaning of oil/water separator and catch basin - Oil/water separator and catch basin are to be inspected monthly and oil/water separator is to be cleaned at least every six months.~~
- * Parking area cleaning and sweeping - Parking lots are to be cleaned and swept at least quarterly to prevent pollutants from entering the storm drain system.
- * Waste management and disposal - Wastes will be limited to standard trash and recycling materials that will be disposed of in standard waste bins and disposed of by a licensed waste removal company.
- * Landscape maintenance - Owner is responsible for general landscape maintenance. The landscape maintenance will consist primarily of watering.
- * Employee training - Property owner is to provide or require training in storm water quality management and required BMPs. Employee training in storm water quality management and required BMPs shall be integrated with any other existing employee training programs.
- * Record of inspection, maintenance and training activities - These shall be kept on site and made available for review by county and/or state officials upon request. An inspection of the site will be conducted by the city annually, or more frequently as may be deemed necessary.

The objectives of the plan are to:

1. Control soil erosion
2. Control discharge of sediment into storm drainage facilities or off-site
3. Prevent illicit discharge into on-site soils, into storm drainage facilities or offsite

If the objectives of the plan are not being met, the site operator or owner shall make adjustments to the plan as needed to accomplish its purposes.
