RECITALS

A. The City is authorized and required to regulate and control the disposition of storm and surface waters within the City, as set forth in the South Jordan City Stormwater Ordinance, as amended ("Ordinance"), adopted pursuant to the Utah Water Quality Act, as set forth in Utah Code § 19-5-101, *et seq.*, as amended ("Act").

B. The Owner hereby represents and acknowledges that it is the owner in fee simple of certain real property more particularly described in **Exhibit A**, attached hereto and incorporated herein by this reference (the "Property").

C. The Owner desires to build or develop the Property and/or to conduct certain regulated construction activities on the Property which will alter existing storm and surface water conditions on the Property and/or adjacent lands.

D. In order to accommodate and regulate these anticipated changes in existing storm and surface water flow conditions, the Owner desires to build and maintain, at the Owner's expense, a storm and surface water management facility and control measures ("Stormwater Facilities") on the Property.

E. The Stormwater Facilities are more particularly described and shown in the final civil engineering plan or subdivision plat approved for the Property and related engineering drawings, and any amendments thereto, which plans and drawings are on file with, and have been approved by, the City, and are hereby incorporated herein by this reference ("Development Plan").

The parties agree as follows:

1. **Construction of Stormwater Facilities.** The Owner shall, at its sole cost and expense, construct the Stormwater Facilities in accordance with the plans and specifications identified in the Development Plan and any amendments thereto, which have been approved by the City.

2. **Maintenance of Stormwater Facilities.** The Owner shall, at its sole cost and expense, adequately maintain the Stormwater Facilities on the Property. Owner's maintenance obligations shall include all pipes and channel built to convey stormwater, as well as all structures, improvements, and vegetation provided to control the quantity and quality of the stormwater. Adequate maintenance, for purposes of this Agreement, is defined as keeping the Stormwater Facilities in good working condition so that the Stormwater Facilities are performing their design functions. In the event that a maintenance schedule is set forth in the Development Plan, such maintenance schedule shall be followed.

3. **Annual Inspection of Stormwater Facilities.** The Owner shall, at its sole cost and expense, inspect the Stormwater Facilities and submit an inspection report and certification to the City annually. The purpose of the inspection and certification is to assure safe and proper functioning of the Stormwater Facilities. The annual inspection shall cover all aspects of the Stormwater Facilities, including, but not limited to, the structural improvements, berms, outlet structure, pond areas, access roads, vegetation, landscaping, etc. Deficiencies shall be noted in the inspection report. The report shall also contain a certification as to whether adequate maintenance has been performed and whether the structural controls are operating as designed to protect water quality. The annual inspection report and certification shall be due by July 31st of each year, commencing the year after the Stormwater Facilities are constructed and complete, and shall be on forms acceptable to the City to be submitted to the Storm Water Department either by Email or postal mail.

4. **City Oversight Inspection Authority.** The Owner hereby grants permission to the City, its authorized agents and employees, to enter upon the Property and to inspect the Stormwater Facilities whenever deemed necessary by the City. The City shall give the Owner not less than 48 hours prior notice of an inspection, except in the event of an emergency. Inspections shall be conducted in a reasonable manner and at reasonable times, as determined appropriate by the City. The purpose of the inspections shall be to determine and ensure that the Stormwater Facilities are being adequately maintained, are continuing to perform in an adequate manner, and are in compliance with the Act, the Ordinance, and the Development Plan. The Owner shall be entitled to have its representative accompany the City's inspectors on the Property.

5. **Notice of Deficiencies.** If the City reasonably finds that the Stormwater Facilities contain any defects or are not being adequately maintained, the City shall send the Owner written notice of the defects or deficiencies and provide Owner with a reasonable time to cure such defects or deficiencies ("Notice of Deficiency" or "Notice"). The Notice shall be hand-delivered to the Owner or sent certified mail to the Owner at the Property address.

6. **Owner to Make Repairs.** The Owner shall, at its sole cost and expense, make such repairs, changes or modifications to the Stormwater Facilities within the cure period stated in the Notice of Deficiency.

It is expressly understood and agreed that the City is under no obligation to maintain or repair the Stormwater Facilities, and in no event shall this Agreement be construed to impose any such obligation on the City. The actions described in this Section are in addition to and not in lieu of any and all legal remedies available to the City as provided by law for Owner's failure to remedy deficiencies or any other failure to perform under the terms and conditions of this Agreement.

8. **Reimbursement of Costs.** In the event the City performs any work or expends any funds to correct any deficiency in the Notice, including without limitation, labor, use of equipment, supplies, materials, the Owner shall reimburse the City upon demand, within thirty (30) days of receipt of supporting documentation. After said thirty (30) days, such amount shall be deemed delinquent and shall be subject to interest at the rate of ten percent (10%) per annum.
