AMENDED
DECLARATION OF BUILDING AND USE RESTRICTIONS

Recorded at Request of American Sav & Loan
at LIBA Fee Paid \$ 300 JERÁDEAN MARTIN, Recorder Salt Lake County.
By SARL RM Dep. Date AUG 17 1971

PART A. PREAMBLE

KNOW ALL MEN BY THESE PRESENTS:

THAT WHEREAS, the undersigned, Amsal Service Corporation, a Utah corporation, being the owner of the real property in Salt Lake County, State of Utah, described as follows, to-wit:

All of Lots 1 to 49, both inclusive, American Villa No. 1, a subdivision, according to the official plat thereof recorded in the office of the County Recorder of Salt Lake County, Utah,

does hereby establish the nature of the use and enjoyment of all lots in said subdivision and does declare that all conveyances of said lots shall be made subject to the following conditions, restrictions, and stipulations, which supersede building and use restrictions recorded 20th of April, 1971 in Book 2951 at pages 727 to and including 731 of official records:

SS
124

PART B. RESIDENTIAL AREA COVENANTS affecting Lots 1 through 49, both inclusive, AMERICAN VILLA SUBDIVISION:

1. Land Use and Building Type. No lot shall be used except for residential purposes. Except as herein provided, no building shall be erected, altered, placed, or permitted to remain on any lot other than one detached single-family dwelling not to exceed two stories in height and a private garage and/or carport for not more than three vehicles; a two-family (duplex) dwelling may be constructed on Lots 1-45-46-47-48 and 49. No prefabricated, ready-built or existing house or dwelling shall be placed on any lot or lots in said subdivision; all construction shall be of new materials, unless prior approval by the Architectural Control Committee.

2. Architectural Control. No building shall be erected, placed, or altered on any lot until the construction plans and specifications and a plan showing the location of the structure have been approved by the Architectural Control Committee as to quality of workmanship and materials, harmony of external design with existing structures, and as to location with respect to topography and finish grade elevation. No fence or wall shall be erected, placed or altered on any lot nearer to any street than the minimum building setback line unless similarly approved. Approval shall be

BOOK 2988 PAGE 896

as provided in Part C.

3. Dwelling Cost, Quality and Size. No dwelling shall be permitted on any lot having a reasonable value of less than \$20,000 including lot, based upon cost levels prevailing on the date these covenants are recorded; it being the intention and purpose of these covenants to assure that all dwellings shall be of a quality of workmanship and materials substantially the same or better than that which can be produced on the date these covenants are recorded at the minimum cost stated herein for the minimum permitted dwelling size. The ground floor area of the main structure, exclusive of one-story open porches and garages, shall be not less than 1050 square feet.

4. Building Location.

(a) No building shall be located on any lot nearer than 30 feet to the front lot line, or nearer than 20 feet to any side street line.

(b) No building shall be located nearer than 10 feet to any interior lot line, except that a one-foot minimum side yard shall be required for a garage or other permitted accessory building located 30 feet or more from the minimum building setback line. No building shall be located on any interior lot nearer than 7-1/2 feet to the rear lot line.

(c) For the purpose of this covenant, eaves, steps, and open porches shall not be considered as a part of a building, provided, however, that this shall not be construed to permit any portion of a building on a lot to encroach upon another lot.

5. Lot Area and Width. No dwelling shall be erected or placed on any lot having a width of less than 70 feet at the minimum building setback line nor shall any dwelling be erected or placed on any lot having an area of less than 9,000 square feet, without prior written approval of the Architectural Control Committee, except that a dwelling may be erected or placed on all corner and cul-de-sac lots, as shown on the recorded plat, provided that the above front and side yard clearances are maintained.

6. Easement. Easements for installation and maintenance of utilities and drainage facilities are reserved as shown on the recorded plat and over the rear

seven (7) feet of each lot. Within these easements, no structure, planting or other material shall be placed or permitted to remain which may damage or interfere with the installation and maintenance of utilities, or which may change the direction of flow of drainage channels in the easements, or which may obstruct or retard the flow of water through drainage channels in the easements. The easement area of each lot and all improvements in it shall be maintained continuously by the owner of the lot, except for those improvements for which a public authority or utility company is responsible.

7. Nuisances. No noxious or offensive activity shall be carried on upon any lot, nor shall anything be done thereon which may be or may become an annoyance or nuisance to the neighborhood. No clothes drying or storage of any articles which are unsightly in the opinion of the Architectural Control Committee shall be permitted in carports, unless in enclosed areas built and designed for such purpose. No automobiles, trailers, boats, or other vehicles are to be stored on streets or front and side lot areas unless they are in running condition, properly licensed and are being regularly used.

8. Temporary Structures. No structure of a temporary character, trailer, basement, tent, shack, garage, barn or other outbuildings shall be used on any lot at any time as a residence, either temporarily or permanently, provided that a permanent hobby-shop may be constructed and used for purposes that are not noisy or offensive to the neighbors, and provided also that duplexes may be built with storage units, garages or carports on the lots which are designated and zoned for duplexes.

9. Signs. No sign of any kind shall be displayed to the public view on any lot except one professional sign of not more than one square foot, one sign of not more than five square feet advertising the property for sale or rent, or signs used by a builder to advertise the property during the construction and sales period, provided that one large sign may be placed at the entrance displaying the name of the subdivision.

10. Livestock and Poultry. No animals, livestock, or poultry of any kind shall be raised, bred, or kept on any lot, except that dogs, cats, or other usual household pets may be kept provided that they are not kept, bred, or maintained for

for any commercial purpose and are restricted to the owner's premises or on leash under handler's control, provided further that no such dogs, cats, or pets are a disturbance or nuisance to the neighbors.

11. Garbage and Refuse Disposal. No lot shall be used or maintained as a dumping ground for rubbish. Trash, garbage, or other waste shall not be kept except in sanitary containers. All incinerators or other equipment for the storage or disposal of such material shall be kept in a clean and sanitary condition. Each lot and its abutting street are to be kept free of trash, weeds, and other refuse by the lot owner. No unsightly materials or other objects are to be stored in any lot in view of the general public.

12. Sight distance at Intersection. No fence, wall, hedge or shrub planting which obstructs sight lines at elevations between 2 and 6 feet above the roadways shall be placed or permitted to remain on any corner lot within the triangular area formed by the street property lines and a line connecting them at points 25 feet from the intersection of the street lines, or in case of a rounded property corner from the intersection of the street property lines extended. The same sight-line limitations shall apply on any lot within 10 feet from the intersection of a street property line with the edge of a driveway or alley pavement. No tree shall be permitted to remain within such distances of such intersections unless the foliage line is maintained at sufficient height to prevent obstruction of such sight lines.

13. Oil and Mining Operation. No oil drilling, oil development operations, oil refining, quarrying or mining operations of any kind shall be permitted upon or in any lot, nor shall oil wells, tanks, tunnels, mineral excavations or shafts be permitted upon or in any lot. No derrick or other structure designed for use in boring for oil or natural gas shall be erected, maintained or permitted upon any lot.

14. Landscaping. Trees, lawns, shrubs or other plantings provided by the developer shall be properly nurtured and maintained and shall be replaced at the property owner's expense upon request of the Architectural Control Committee.

15. Slope and Drainage Control. No structure, planting or other material shall be placed or permitted to remain or other activities undertaken which may damage or interfere with established slope ratios, create erosion or sliding problems, or

which may change the direction of flow of drainage channels or obstruct or retard the flow of water through drainage channels. The slope control areas of each lot and all improvements in them shall be maintained continuously by the owner of the lot, except for those improvements for which a public authority or utility company is responsible.

PART C. ARCHITECTURAL CONTROL COMMITTEE

1. Membership. The Architectural Control Committee shall be composed of Howard C. Bradshaw and Ralph C. Watson and Donald Allen. A majority of the committee may designate a representative to act for it. In the event of death or resignation of any member of the committee, the remaining members of the committee shall have full authority to select a successor. Neither the members of the committee, nor its designated representative, shall be entitled to any compensation for services performed pursuant hereto. At any time, the then record owners of a majority of the lots in said subdivision shall have the power, through a duly recorded written instrument, to change the membership of the committee or to withdraw from the committee or to restore to it any of its powers and duties.

2. Procedure. No building, outhouse, garage, fence, wall, retaining wall, or other structure of any kind shall be added, erected, constructed, placed or maintained on said real property, or any part thereof, nor shall there be any changes made to the exterior of improvements on the property by way of alteration, addition, repairing, remodeling, or adding, unless, prior to the commencement of any construction, excavation, or other work, two (2) complete plans and specifications thereof, including front, side, and rear elevations and floor plans for each floor and basement, color scheme thereof, and two (2) plot plans indicating and fixing the exact location of such structure, or such altered structure, on the lot with reference to the street and side lines thereof shall have been first submitted in writing for approval, and approved in writing by the Architectural Control Committee.

(a) In the event said committee, or its designated representative, fails to approve or disapprove such design and location within thirty (30) days after said plans and specifications have been submitted to it, or in any event, if no suit to enjoin the erection of such building or the making of such alterations has been commenced prior to the completion thereof, such approval will not be required and this covenant will be deemed to have been fully complied with. It is the intent of these restrictions to define the name "committee" wherever it appears in these restrictions, to mean the Architectural

Control Committee referred to in Part C hereof.

PART D. GENERAL PROVISIONS

1. Term. These covenants are to run with the land and shall be binding on all parties and all persons claiming under them for a period of forty (40) years from the date these covenants are recorded, after which time said covenants shall be automatically extended for successive periods of ten (10) years unless an instrument signed by a majority of the then owners of the lots has been recorded, agreeing to change said covenants in whole or in part.

2. Enforcement. Enforcement shall be by proceedings at law or in equity against any person or persons violating or attempting to violate any covenant and to restrain violation thereof and such action may be brought by any owner of an interest in any lot or lots in said subdivision.

3. Severability. Invalidation of any one of these covenants by judgment or court order shall in no wise affect any of the other provisions which shall remain in full force and effect.

The restrictions herein contained shall be in addition to and not in conflict with the zoning ordinances now in force as enacted by Salt Lake County, Utah.

IN WITNESS WHEREOF, the undersigned have executed these restrictions this 9th day of August, 1971.

AMSAL SERVICE CORPORATION,
A Utah Corporation

By Howard C. Bradshaw
