APPLICATION FOR REALLOCATION OF PROJECT WATER

This Application for Reallocation of Project Water shall act as a suspension and transfer of certain Project Water, as outlined below. The following first described lands (the "Lands") have been allotted 1.8 acre-feet of Project Water by Reallocation and Order recorded as E864676, Book 1304, Page 772, in the records of DAVIS County, Utah. Such Lands since the Petition and Order have been divided into additional separate parcels requiring a Suspension of the Petition and Order and a Transfer of the maximum amount of Project Water that now may be allocated to and beneficially used upon the Lands (the "Transferred Water"). After investigation and in conformance with policy, the Weber Basin Water Conservancy District (the "District") has determined the Transferred Water to be 0.7 acre-feet of Project Water, and the lien created by such allocation of Transferred Water should be allocated to the Lands. The remainder of the original allotment of Project Water under the Petition and Order, in the amount of 1.1 acre-feet, shall be returned to the District's Water inventory. The undersigned, Secretary of the District, accordingly hereby applies to the Board of Trustees of the District for such Suspension and Transfer of Project Water and requests that a time and place for hearing upon this application be fixed, and notice thereof be given to all interested parties in the manner provided by the Rules and Regulations of the District.

ORDER ON APPLICATION

Application having been made for the Suspension and Transfer of 1.8 acre-feet of Project Water and the lien created by the allotment thereof as described in the above application, which application is in proper form, and all parties interested in such allotment having been given notice thereof and of the time and place of hearing thereon, and after hearing by the Board of Trustees of Weber Basin Water Conservancy District, it is hereby determined that the granting of such application is in the best interest of the District, and it is hereby ORDERED that such application be granted under the same terms and conditions as in the original Petition and Order for allotment of water (which by reference are deemed incorporated herein), for the Transfer of 0.7 acre-feet of Project Water to the Lands and the return of 1.1 acre-feet of Water to the District's Water inventory. It is further ORDERED that the lien created by such allocation of Transferred Water to the Lands shall be pro-rated among and shall hereafter attach to the several tracts described under the heading "Descriptions of Lands and Allotment of Transferred Project Water", in the proportion to which the Project Water transferred to each tract bears to the total water transferred hereunder to all such tracts.
