C-6 EASEMENTS. Easements for installation and maintenance of utilities and drainage facilities are reserved as shown on the recorded plat. Within these easements, no structure, planting or other material shall be placed or permitted to remain which may damage or interfere with the installation and maintenance of utilities, or which may change the direction of flow of drainage channels in the easements, or which may not obstruct or retard the flow of water through the drainage channels in the easement. The easement area of each lot and all improvements in it shall be maintained continuously by the owner of the lot, except for those improvements for which a public authority or utility company is responsible.

C-7 LANDSCAPING. Landscaping shall be substantially completed on all sides of the dwelling within one calendar year after the City of Pleasant View issues a certificate of occupancy. Construction shall be deemed to have started on the date the lot owner obtains a building permit from Pleasant View city. Landscaping plans shall be subject to review and approval by the Architectural Control Committee. In the event a Buyer purchases 2 or more lots but plans on building a home on just one of them each lot shall be subject to the landscaping conditions contained herein.
