3.2. Approval Required of Improvements. Except for Improvements to be constructed by Declarant, no Improvement, including, by way of illustration and not of limitation, a building, shed, patio, fence, wall or other structure shall be commenced, erected, altered or added to until the “Plans and Specifications” for the Improvement showing the nature,

kind, shape, height, materials, exterior color scheme and location of such structure, and the grading plan and finished grade elevations of the Lot upon which the Improvement shall be constructed have been submitted to and approved by the Design Review Committee. Such approval shall be in writing and a copy of such approval shall be maintained by the Design Review Committee. All subsequent additions to or changes or alterations in any building, fence, or other Improvement, including exterior color scheme and all subsequent additions to or changes or alterations in any grading or landscaping plans shall be subject to the prior approval of the Design Review Committee.

3.3. Approval. The DRC shall approve Plans and Specifications submitted for its approval only if it deems that the construction, alterations, or additions or Improvements contemplated thereby in the locations indicated, will not be detrimental to the surrounding area or Lots as a whole, and that the appearance of any proposed Improvement affected thereby will be in harmony with the surrounding Improvements. The DRC shall have the right to refuse to approve any Plans or Specifications, or grading or landscaping plans which, in the opinion of the members of DRC, in the exercise of their reasonable judgment, are not consistent with the requirements of this Declaration or the general character of the Project. Such determination may be made for aesthetic or other reasons, and in the review and approval or disapproval of Plans and Specification, the DRC shall have the right to take into consideration the suitability of the proposed building or other Improvement and of the materials of which it is to be built, to the Lot upon which it proposes to erect the same, the harmony thereof with the surroundings, the topography of the land and the effect of the building or other Improvements as planned on the outlook from the adjacent or neighboring Lots. The DRC may also issue rules or guidelines regarding anything relevant to its function, including but not limited to minimum standards and procedures for the submission of Plans and Specifications for approval. The DRC may require a review fee not to exceed Two-Hundred Dollars (\$200.00) to accompany each application for approval and a reasonable fee for any appeal waiver to the Design Review Committee. The DRC may require such detail in Plans and Specifications submitted for its review and such other information, as it deems proper. 3.5. Waiver of Consent. The approval or consent of the DRC to any Plans or Specifications for any work done or proposed, or in connection with any other matter requiring the approval or consent of the DRC, shall not be deemed to constitute a waiver of any right to withhold approval or consent as to any Plans or Specifications or other matter whatever subsequently or additionally submitted for approval or consent by the same or a different person.

3.6. Non-liability of DRC Members. Neither the DRC nor any member thereof, shall be liable to any Owner or to any other person for any loss, damage or injury arising out of or in any way connected with the performance of the DRC's duties under this Declaration unless due to the willful misconduct or bad faith of the DRC or its members. Neither the DRC nor any member thereof shall be responsible for reviewing, nor shall its approval of any Plans and Specifications be deemed approved from the standpoint of structural safety, engineering soundness, or conformance with building or other codes, or any requirements of the City.

The provisions of this section shall not be applicable to Declarant or any party contracted with Declarant for the original sale of the Lots in the Project and the construction of the original residences.

4.15. Construction Activities. This Declaration shall not be construed so as to unreasonably interfere with, or prevent normal construction of Improvements by any Owner, provided that when completed such Improvements shall in all ways conform to this Declaration. Specifically, no such construction activities shall be deemed to constitute a nuisance or a violation of this Declaration by reason of noise, dust, presence of vehicles or construction machinery, posting of signs, or similar activities, provided that such construction is pursued to completion with reasonable diligence and is in compliance with applicable federal, state and local laws and ordinances and any rules and regulations adopted pursuant thereto, and conforms to usual construction practices in the area. In the event of any dispute, a temporary waiver of the applicable provision, including but not limited to any provision prohibiting temporary structures, may be granted by Declarant, provided that such waiver shall be only for the reasonable period of such initial construction. Such waiver may, but need not, be recorded or in recordable form.
